

President Tries Aid Low Incomes

Local initiative, interest and enterprise form the foundation for a proposed plan aimed at helping low-income farm families find ways to improve their level of living. The plan has been presented to Congress by President Eisenhower.

The President's long-range plan is based upon the concept that a permanent solution must begin with the goals set by the people themselves, and be attained through the cooperative efforts of all segments of the community and all levels of government concerned with the problem.

Recommendations included in the plan call for an expansion of Federal and State services in technical assistance and extension work in areas of low resources; more intermediate-term credit from private and cooperative lending agencies for farm development; additional credit and technical assistance from the Farmers Home Administration; a Federal-State research program aimed at solving problems common to the low-income group; improved state employment services and encouragement of industrial expansion in regions of underemployed rural labor.

Also to begin pilot programs within the next school year to develop more educational and vocational training opportunities in rural areas; improve health service and medical facilities in areas of need and trade area and community development program to increase incomes and raise living standards.

A U. S. Department of Agriculture report, upon which the plan is based, shows that 1.5 million farm families have a total cash income of less than \$1,000 a year. Under Secretary of Agriculture True D. Morse has been named the major USDA official responsible for directing and coordinating the USDA's part in the program.

J. L. Duflo Is in Serious Condition

J. L. Duflo is in serious condition at a Galveston hospital where he underwent an operation last Tuesday morning.

It is reported that a Canyon doctor advised him to go to his son, Dr. Leo Duflo, if he was not certain of the diagnosis. The operation proved Mr. Duflo to be in serious condition.

It was necessary for the physicians to return about three-fourths of his stomach because of a cancerous growth.

Santa Fe Depot Has Big Business

The flood in Colorado caused a number of Santa Fe trains to be transferred from the Northern to the Southern run last week.

The Government shipped out a large number of earloads of grain which had been stored in local elevators to Galveston where it was either loaded on ships for foreign ports or placed in storage in "mothball" ships.

Hurry Bugs Take Lives

"Don't be a Hurry Bug, Slow Down and Live!"

This advice was given to Texas motorists by E. C. McFadden of Dallas, president, Texas Safety Association, Inc., as he discussed the speed control program of the Texas Safety Association and Department of Public Safety. This program is being conducted in cooperation with the National Safety Council.

The Hurry Bug referred to by Mr. McFadden is one of Walt Disney's new creations — a character who exhibits all the traits of the speed-happy driver.

"A Hurry Bug is so intent on getting to his destination in the shortest possible time that nothing else matters to him," Mr. McFadden said. "Courtesy, good judgment, safety — they all go by the board when he's behind the wheel."

Mr. McFadden said that the typical Hurry Bug is a top candidate for ulcers or a nervous breakdown and also stands a mighty good chance of cracking up in a traffic accident.

"He's the fellow who sets his speed strictly by the speed potential of his car — or by the maximum speed limit, if he thinks a traffic officer may be somewhere around," Mr. McFadden said.

He contrasted the Hurry Bug's irresponsible conduct with the wise behavior of the motorist who drives at a speed that's safe for conditions — conditions of weather, traffic, road, his car and his own physical and mental state.

"Reduced visibility, slippery or rough roads, heavy traffic, fatigue or worry are all warnings to slow down," he said. The Hurry Bug ignores them, but the intelligent driver heeds them. "The Hurry Bug too often hurries himself into the hospital or into eternity," Mr. McFadden said. "Slow Down and Live!"

Sixtieth Year

Canyon, Texas

Wednesday, June 8, 1955

Number 9

Haley Named Head of Drive

Arthur C. Haley, Jr. of Canyon, has been named chairman of the Randall County Texas United Defense Fund. The state-wide group has sponsored a campaign for USO in the amount of \$998,000 for Texas.

The quota for Randall county has been set at \$998.00. At the present there are 183 servicemen from Randall county serving in the Armed Forces. This amount is a little more than \$5 for each of these men now under arms.

Haley was appointed by J. W. Witherspoon of Hereford, who is the district chairman for the coming fund appeal. He served in the Navy during the war and is thoroughly familiar with the services rendered servicemen by USO.

Funeral Held For W. A. Black Tuesday p. m.

Funeral services for Wm. Alexander Black, 79, were held Tuesday afternoon at 2 o'clock at the First Baptist Church. Rev. Strauss Atkinson, the pastor, was in charge of the services.

Mr. Black died suddenly at his home Sunday evening at 6:30 o'clock. He had suffered from heart trouble for several months. Mr. and Mrs. Black were married in 1900. They had lived in Canyon for 36 years. He was a retired maintenance worker.

Survivors are the wife, Mrs. Louisa Black; three daughters, Mrs. Lela Gilbert of Canyon, Mrs. Ed Ely of Amarillo, Mrs. Norma Tansing of Krimburg, Colo.; one son, J. T. Black of Skellytown; 7 grandchildren; 5 great-grandchildren; a half brother, J. R. Montgomery of Andrews.

Pall bearers were W. H. Harden, A. M. Cunningham, T. S. Stevenson, Dr. Ford Fronabarger, Dr. Lee Johnson, G. C. Cole.

The Griggs - Warren Funeral Home was in charge of the burial at Dreamland Cemetery.

Stork Specials

Weighing 7 lbs. 14 oz., little Miss Cynthia Lee Howard was born to Mr. and Mrs. George Howard in Shamrock on May 30. Mrs. Howard is the former Geraldine Hart, daughter of Mr. and Mrs. Silas Hart.

Scott and Margo Jennings, son and daughter of Mr. and Mrs. Fred Jennings of Phoenix, Ariz., are visiting their grandparents, Mr. and Mrs. T. S. Stevenson, Sr. Mr. and Mrs. Jennings will come later in the summer for a visit and take the children home with them.

Mrs. Clayton Freeman was injured when the pickup in which she was riding overturned west of Canyon Sunday morning. She was brought to the Neblett Hospital for treatment.

Mrs. S. H. Condon left Monday night for Waco, where she was called by the serious illness of her son, Stuart, who had undergone an emergency appendectomy.

On Sunday Mrs. Silas Hart returned from Shamrock where she had spent a week in the home of her daughter and family, the George Howards.

Chamber Group Talks About New Homes; New Court House For Randall

The second "coffee" meeting of the Chamber of Commerce centered around the need of new homes for Canyon and the need of a new court house for Randall county.

A report was given to the group assembled at the Legion Hall by Truett Hull, president of the Chamber, on the homes situation. While FHA had rejected the first plans for homes to be erected in the west part of town, Mr. Hull stated that in a telephone conversation just before the meeting from the contractor stated: "We are not through. We have revised our plans and hope to continue the project which has been under consideration for some time."

This plan was highly acceptable to the people of Canyon, according to those attending. The need of more paved streets will go with home building in the west part of Canyon.

The need for a new court house was discussed to a greater extent. Judge Roy Joe Stevens attended the meeting and stated that the need of a more modern court house was apparent to those who would use their eyes and look critically at the needs of Randall County. The present structure was erected in 1908 at a cost of \$58,000. All bonds have long ago been paid off.

Two Local Boys on a 1200 Mile Trip in '24 Ford

Two Canyon youths are making a 1,200-mile trip through the Midwest in a 1924 Model-T Ford.

Wilford Taylor III, son of Mr. and Mrs. Wilford Taylor, Jr., and Royce Gum, son of Mr. and Mrs. L. E. Gum, are the drivers. At the close of school, May 25, the two left Canyon on their tour. They visited an Antique Auto auction at Claremore, Okla., and went on to Beloit, Kansas, to an antique car meet.

According to their letters, the two have averaged 25 miles to a gallon of gasoline during their travels so far, and their speed on the Turnpike between Oklahoma City and Tulsa averaged 31.7 miles per hour.

Both young men are members of the Canyon High School Band, and Wilford is a member of the Horseless Carriage Club of America. Both are taking flying lessons. Wilford already has a student pilot's license and Royce will get his soon. Both are members of the Methodist Church.

Wilford won a regional boxing trophy at Plainview this year, and Royce received a medal in agriculture at a Lubbock meet.

Wilford has driven the old Ford in a number of shows and it always attracts attention.

Payne Baby Died at Neblett Hospital

Travis W. Payne, III, died Sunday a few minutes after the baby's birth at the Neblett Hospital.

A graveside funeral was conducted Sunday afternoon by Rev. Strauss Atkinson at Dreamland Cemetery.

Survivors are the parents, Mr. and Mrs. Travis Payne, Jr., of Happy; one sister, Launda Gail Payne; grandparents, Travis Payne, Sr. of Happy; Mrs. Gladys Dixon of Canyon; great-grandparents, Mr. and Mrs. E. R. Sprawls of Tulsa, Mr. and Mrs. E. N. Cook of Canyon, Mr. and Mrs. S. J. Payne, Sr. of Tulsa, Mrs. J. L. Dixon of Oklahoma; great-great-grandmother, Mrs. Belle Henkins of Oklahoma.

Director William A. Moore earlier named the "three angels," L. R. Reeves, Mobeetie, as Joseph, the embezzler; James "Rosy" Bates, Dimmitt, as Jules, the wife-killer; and Bobby Vandergriff, Canyon, as Alfred, the playboy killer.

Bill McDonald, Canyon, is Monsieur Henri Trochard; and Dale Pedigo, Amarillo, is Paul Trochard. Ledbetter is also the student director, and Mrs. Margaret Echols Moore will be co-director with her husband.

The play, written by Sam and Bella Spewack, tells how three convicts in the French Guiana prison become the good angels of a sadly harassed household.

A sort of Gallic Christmas Carol, in which it is simpler to "bump off Scrooge than to convert him," according to Moore, "My Three Angels" shows the passionate belief of the convicts in "the Robin Hood of man."

"My Three Angels," the most often produced play in collegiate and community theaters last year, was presented on Broadway in 1953 and starred Walter Slezak. It was directed by Jose Ferrer.

Canyon has enjoyed cool weather the past week.

While the temperature has been high during the afternoons, the night temperature has dropped to around 50 degrees.

The Panhandle has had no hot weather so far this year, but the people are expecting a radical change before the end of June.

Money for your old air-conditioner! Trade it in now on a new model at Western Auto Store. 911

Highway Through Canyon Is Topped

The State Highway Department has engaged in a topping job through Canyon during the past week.

The farm-to-market road from Amarillo to the Palo Duro State Park was given a coat of topping together with the job to Canyon and the streets which had been taken over by the highway.

Mr. and Mrs. C. N. Tippery and family, with Mrs. W. H. McAtee and Mrs. Lee Chandler of Borger returned Sunday night from California where they had spent ten days visiting with Mr. Tippery's relatives at San Pedro, Mrs. McAtee's son, Don, in Hollywood and with other relatives in that vicinity.

Mrs. W. H. Perry, Jr., spent the week-end in San Angelo visiting her husband's parents, Mr. and Mrs. W. H. Perry, Sr.

Richard Sanders, Bobby Cole, George Dowlen are home from the University of Texas where they are students.

Mr. and Mrs. Chester Dowell of Lawton, Okla., spent the week-end in the home of Mrs. Ruth Hill and Lowell.

Enjoy resort weather in your own home, by installing a Clear-Vue Air Conditioner. Western Auto. 911

Four Directors Named in Vote

Four directors were named for the coming year by vote of the directors of the Panhandle-Plains Historical Society, and a fifth will be selected from three who tied in the recent vote.

Those selected were Harold D. Bugbee of Clarendon, J. Evetts Haley of Canyon, Newton Harrell of Claude, Dr. L. F. Sheffy of Canyon.

Those who tied for the fifth place were Fred Hobart of Pampa, Hamlin Overstreet of Farwell, S. B. Whittenburg of Amarillo.

Three Angels to Be Produced Here

Second and third performances of "My Three Angels," a comedy to initiate the summer theatre season at West Texas State College, will be held Wednesday and Thursday at 8:15 p. m. in the Branding Iron Theatre.

Box office at the speech building will be open daily from 1 p. m. until curfewtime, and reservations are urged. Admission is 75 cents.

Based on "L. Cuisine des Anges," a novel by Albert Hussov, "My Three Angels" will be the first of three plays planned this summer by the Palo Duro Players. It opened last night.

Mary Jo Ondracek, Dalhart, will appear in the comedy as Mrs. Emile Ducotel; and Barbara Jo Powell, Perryton, will play her daughter, Marie Louise Ducotel. Playing Madame Parole will be Verdi Knox, Happy; Gene Ledbetter, Amarillo, is the lieutenant; and Don Bauer, Tulsa, is the father.

Director William A. Moore earlier named the "three angels," L. R. Reeves, Mobeetie, as Joseph, the embezzler; James "Rosy" Bates, Dimmitt, as Jules, the wife-killer; and Bobby Vandergriff, Canyon, as Alfred, the playboy killer.

Bill McDonald, Canyon, is Monsieur Henri Trochard; and Dale Pedigo, Amarillo, is Paul Trochard. Ledbetter is also the student director, and Mrs. Margaret Echols Moore will be co-director with her husband.

The play, written by Sam and Bella Spewack, tells how three convicts in the French Guiana prison become the good angels of a sadly harassed household.

A sort of Gallic Christmas Carol, in which it is simpler to "bump off Scrooge than to convert him," according to Moore, "My Three Angels" shows the passionate belief of the convicts in "the Robin Hood of man."

"My Three Angels," the most often produced play in collegiate and community theaters last year, was presented on Broadway in 1953 and starred Walter Slezak. It was directed by Jose Ferrer.

Cool Weather Has Prevailed in City

Canyon has enjoyed cool weather the past week.

While the temperature has been high during the afternoons, the night temperature has dropped to around 50 degrees.

The Panhandle has had no hot weather so far this year, but the people are expecting a radical change before the end of June.

Mr. and Mrs. A. C. Evers of Amarillo are the parents of a son, born June 3.

A son was born to Mr. and Mrs. Roger L. Glandon on June 4.

Born to Mr. and Mrs. J. D. Francis, a son on June 4.

Upchurch Moves Office to Floor

W. H. Upchurch has moved his office from the third floor of the court house to the T. A. Black building just east of the Randall County Abstract Co. office.

PMA has a lease on the building which Mr. Black extended to the rear in order to make room. The building was built under the design of Mr. Upchurch to suit the needs of the office.

Melvin Henson Hurt in Car-Truck Smash

Melvin Henson was seriously injured Wednesday in a car-truck smashup in Dallas and is in the Baylor Hospital in Dallas. His head was badly crushed in the impact.

Mr. Henson has lived in Canyon for several years. He had recently bought a home from his mother, just east of the Henson home on Fifth Avenue.

Virgil Henson was called to Dallas by his brother's condition, returning home Sunday night.

Funeral Pending Accident Victim

The body of Frances Ann Parker was brought from the Groom hospital Monday by the Griggs-Warren Funeral Home, where it will be held awaiting the condition of the mother, Mrs. Walker F. Parker.

Mrs. Parker and two daughters were on their way to spend the week-end with her mother, who was recovering from an operation. Their car was hit broadside by the other car and the little girl died as a result of the injuries received.

Survivors are the father and mother and an older sister.

Amarillo Boy Gets \$100 Fine

Four boys from Amarillo were riding the streets of Canyon Monday night, throwing firecrackers at pedestrians. A man and his wife were pushing their baby in a walker when the boys came along. The man saw all four throw fireworks, and remembered the car license. He reported this to Police Officers Geo. Rhoden and Bill Camp.

One of the boys thought he would play the game smart by admitting that he was the only one of the four who threw the fireworks. The man testified differently in the court of Judge B. F. Machen.

"Since you will assume all the responsibility you will therefore pay the total fine of \$100 which I deem a sufficient lesson," was the Judge's remarks to the badly defeated and crestfallen culprit.

The boy had \$35 to apply on his fine. He was given until June 18 to bring the balance of the cash into court.

Funeral For Mrs. Magness Today

Mrs. Annie I. Magness died Tuesday at the family home in Happy. She was 73 years of age.

The funeral will be held this afternoon at 3 o'clock at the Griggs-Warren Funeral Home, conducted by Rev. Woodrow Williams, pastor of the Happy Methodist Church. Burial will be in the Happy Cemetery.

In addition to the husband, J. F. Magness, the deceased is survived by four daughters and three sons.

Pall bearers will be Weldon Sims, Don Magness, Babe Walberg, Charlie Davis, Dale Whitlow, Phil Magness, Bob Louder, Ralph Huse.

Rites For Joseph B. Lange Friday at Happy Church

Joseph B. Lange was accidentally killed May 30 at Charleston, S. C., when a gun was discharged.

He was born Oct. 5, 1915, and was married to Lola Wesley in 1946. She died in 1948, and was buried at Wayside.

Requiem High Mass was held in the Holy Name Church in Happy Friday morning at 9 o'clock.

Survivors are his parents, Mr. and Mrs. Joe Lange of Happy; two brothers, George of Ruffin, S. C., Albert of Vigo Park; six sisters.

Pall bearers were Phillip Rickwartz, Joe E. Lange, Charles Wesley, Darrel Wesley, Wayne Wesley, Kenton Wesley.

Martha J. McBroom Progresses in WAC's

WAC CENTER, Fort McClellan, Ala. — Private Martha J. McBroom, daughter of Mr. and Mrs. Jack McBroom, 1300 6th St., Canyon, has just completed basic training at the new Women's Army Corps Center, Fort McClellan, Ala., and has been assigned to the Clerical Procedures and Typing Course there.

Private McBroom enlisted in the WAC in February. She is a graduate of Canyon High School.

Private McBroom and other women enrolled in the course may be graduated when they have attained the proficiency necessary for assignment. They are not required to attend the maximum limit of the course to graduate if they do not need the training.

No previous typing training or experience is necessary for the clerk-typist section. Classes are taught at all levels of learning, from beginners to skilled personnel. Each student in the typing classes as well as the stenographic courses receives individual instruction to aid her progress.

The clerk-typist training is from four to eight weeks in length, with the stenographic training scheduled for a maximum of 12 weeks. Students may be graduated after a minimum of four weeks, during which time they are also taught such military subjects as correspondence, pay and allowances, office procedures, military security, and legal affairs.

Interiors of all classrooms are decorated in pale green and cream, and utilize green "blackboards" and yellow chalk, colors said by educators to be best for aids to teaching and learning and to prevent tiredness and eyestrain.

Court of Honor For Boy Scouts

Tuesday night, May 31, Troops 66 and 97 had a joint Court of Honor at the First Christian Church.

Ronald Bourland, Ralph Cabe, and Lohennie Wall received their tenderfoot; Dudley Bayne and Bill Cornette received their First Class and Bill Dreiss got a Star Badge.

Boys receiving Merit Badges were Bobby Barnhart, Poe Cabe, Alan Hanks, Larry Brotherton, Bill Cornette, and Bill Dreiss.

Bobby and Jimmy Barnhart were each given a sleeping bag and a pack by the troops, since their homes were destroyed in the fire at their home.

Bill Cornette received two service stars.

Badges awarded for troop jobs were: Bill Dreiss, bugler; Chuck Nester, scribe; Dudley Bayne, librarian.

Field Day awards were also presented.

A contest was held to see which troop could have the most visitors and members present with show passes for prizes. Troop 66 won 42-27.

MARRIAGE LICENSES

Donald Wayne Hodges to Miss Freddie Jean Donaldson, May 31. Robert Loyd Dobbins to Miss Medora Pearl Shaw, May 31.

John Carroll Tom Middleton to Miss Glenda Lee Prahter, June 2.

PICNIC A'COMING

Canyon Mother-in-Law Club will meet June 9th at 7 o'clock in the home of Mr. and Mrs. G. W. Cox, 1905 Fourth Avenue, for their annual picnic. All members are expected to be there.

Two Local Men Are Doctors

DR. JACK COOPER

DR. W. MITCHELL JONES, JR.

Two local boys have graduated from the medical branch of the University of Texas at Galveston and received their Doctor of Medicine degrees.

Dr. Cooper is the son of Mr. and Mrs. L. A. Cooper of Canyon. He attended the West Texas High School, and West Texas State. He will serve as intern in the United States Public Health Service Hospital in Seattle. His wife is the former Ruth Ann Soll.

Dr. Jones is the son of Mr. and Mrs. Mitchell Jones of Canyon. He attended the West Texas State High School and West Texas State. He will serve his internship at the Detroit Receiving Hospital in Detroit, Mich. His wife is the former Reba Killian.

May Building Hits \$77,500

According to City Hall records the May building permits in Canyon zoomed to \$77,500. A total of seven permits were issued to bring the monthly building to this figure.

Four of the May permits were for residences, one for an addition to a residence. There was a permit for a church and one for a lumber company siding.

The May building permits went almost \$50,000 more than the permits issued during the month of April. April permits totaled \$27,800 and all were for residences.

Miss Erdman Will Speak at Denton

Miss Loula Grace Erdman, author and associate professor of English at West Texas State College, will be the featured speaker for the annual library clinic, held annually by North Texas State College in Denton.

The clinic is held by the Library Service department of NTSC, and Miss Erdman will speak Friday at 8 p. m. in the library auditorium. About 100 ex-students of the department are expected. She will talk on "Inspiration or perspiration?"

Joe H. Bailey, WT librarian who is a graduate of the NTSC department, plans to attend the clinic which closes Saturday.

WT Student Given Award of Merit

James M. Wilson, Briscoe, has been awarded the Wall Street Journal Student Achievement Award for "outstanding work in business administration" at West Texas State College.

The award, including a bronze medal and subscription to the business paper, was given for scholarship and merit, according to Dr. Lee Johnson, chairman of the WT School of Business.

A May graduate of WT, Wilson is attending classes this summer to work toward a master's degree. He is a member of Sigma Beta Mu, honorary business fraternity. He is the son of Mr. and Mrs. Milton Wilson of Briscoe.

EDITORIAL COMMENTS

A Few Observations As The Days Roll By

How do you like it? Not the weather, to be sure, since everyone is praising the rains; but the new type from which this column is produced.

The new mats were ordered about two months ago, but just came. It takes a lot of time to get orders for printing material these days, sure enough. Yes, are we not bragging about the price — the terrible price.

Every time an order goes through to a printing establishment, tribute is paid to CIO, which controls the printing business. But we will say no more!

The Supreme Court has given out another ruling on Negro segregation.

So far as schools are concerned, the local boards of trustees will still have more to say about schools than the court first intimated. Yet, the blacks will be admitted to all of the schools of the land, whether the whites object or not.

It was first intimated that the court held that schools must open their doors at once and allow Negroes to come in, regardless of public opinion on the subject. This opinion was somewhat modified to meet the objections of Southerners who were bitterly opposed to mixing the races.

So far as the people generally are concerned, the ruling of the Supreme Court places the obligation of their schools in the hands of local school boards, where it was originally placed by the people.

Ever so often some wise persons come up with an idea that the local schools should be run out of Austin or Washington, rather than by local trustees!!

It is very hard not to fool yourself about yourself.

Nature is a great teacher, if you care to take lessons.

Why is it one sometimes has such prankish thoughts in church?

It is surprising how much can be done with a smile and a helping hand.

It is easy to get the idea that nobody should interfere with your business.

It is strange how other people can tell you how to run your business, and why.

After-dinner speakers, we have concluded, do not usually earn their dinners.

Doctors and lawyers have a job to do in protecting the reputation of their professions.

Envy explains many things that happen in life which otherwise have no explanations.

We are about to come around to the view that there is something to this air-conditioning.

London, England, and Dallas, Texas, are far, far apart, but worried over the same conditions—strikes of transportation workers.

Across the Atlantic, our English cousins appeal to the Queen for help. Regardless of what her Majesty can do, walking is a poor way to get places.

Here in Dallas, the Mayor stepped right into the fray and told the strikers that the public has certain rights, which must be respected. Unfortunately when strikes are called by labor leaders, the public is not considered as the innocent bystander, who gets the dirty end of the stick.

Yet the public has their rights, and will fight for these rights.

The beer crowd thought that they were sitting pretty in Texas because they controlled enough votes in The House to stop taxation.

It took Senator Grady Hazlewood of Randall county to put over his 1-1-1 idea which increased the tax on beer, but not to the extent that it is taxed in other states.

What a howl goes up. Those who swig beer do not like the idea of having to pay taxes. They want their beer free of taxation, regardless of how the state of Texas handles its multiple of problems.

It takes money to operate a great state like Texas. The \$25 per day boys who have been working free of charge since May 10 sat up and emitted a profound and unified howl at this "unjust" taxation.

Representatives Andis and Wilson found that they had received hundreds of phoney messages when the taxation bill passed the Senate.

We recalled the fact that when the House first clamped a tax on cigarettes, salesmen working this territory mailed a fistful of postcards to your Newsman, who was a member of the House. All of the cards were mailed from Clovis, rather than from some Texas town.

We voted for the tax on cigarettes and would have voted with Senator Hazlewood on his bill had we been a member of the House this time.

The beer crowd has been getting away with murder, so far as unjust and too low taxation is concerned.

Life's little mystery: What is the point when a 250-pound darling buys a new flossed-up hat?

It is just possible that the general public will have to be protected from both labor and capital.

The University of Texas has passed a ban against the presence of cars on the campus for Freshmen immediately, and for Sophomores in the year of 1956.

A glance at the campus of any educational institution in the United States will show the abuse of the privilege of cars on the campus. Too much room is being used for parking places.

When the Freshmen and Sophomores are barred from taking their cars to Austin, the situation may be improved.

Yes, and kids who refuse to walk to classes will go to colleges where there are no restrictions.

Americans are the greatest beef-eaters in the world, disposing on the average 5,000,000 tons of beef each year. Yet for all that this sounds like an imposing consumption, it amounts to but 62½ pounds a year for each man, woman and child in the nation. Furthermore, our per capita consumption of pork is nearly 20 per cent higher than beef consumption.

It appears, therefore, that the campaign of the Texas Beef Council, to get more people to eat beef is driving for a justifiable end. Not only would such a campaign tend to "keep the government out of the cattle business," as explained by Leo Welder of Victoria, the president of the council, but it should tend to improve the national health.

Beef is an excellent source of protein. It is an energy builder and one of our best natural foods. Our present weekly consumption of 20 ounces of beef could well be doubled.

And then there was the man who thought, back in 1946, that building prices would come down.

These comments are not necessarily the most brilliant ever penned; we are not that far at sea.

And then we have no objection to the smiles of pretty young things, the innocent ones, of course.

It usually gets down to a cat-fight, even among the best of families, when the green-back is involved.

The graduation orators are in great form again this year, and all of them are against atomic war.

The business prophet who predicted a bust for this time of year has conveniently forgotten that chapter.

In the end, which is sometimes a long time in coming, all matters even out, and the truth always emerges.

For the first time in years there is some justification for the belief that Moscow's leaders want peace.

The real enemy of society is the person who intentionally seeks to mislead those who are searching for facts.

With the 1956 election little more than a year distant, we need not get alarmed every time a politician gets alarmed.

The reason most people don't know more is that they don't make any effort to listen when listening is indicated.

A hundred citizens of the United States bite the dust every day because our highways are not safe place to be driving.

According to railroad figures, at least 700 passenger trains must be discontinued before railroads will show a profit.

This would be tough on the high moguls of the railroads who have been in the habit of telling the dear public where to head in.

The trucks, busses and planes have caused the changing habits of the American people. Folks who formerly rode the trains and thought nothing of waiting hours for late transportation now demand that they have immediate service.

There are smarter paragraphs in the country — they seem to have access to better files.

The United States should trust all nations but, just to be safe, maintain strong defense forces.

There eventually comes a time when anybody gets tired of work.

A little prominence does not go to the head of a really prominent person.

An executive is a business man who has to work hard to find work for the staff to do.

The church, as an institution, deserves your support, but not because it is perfect.

Financial advice: Save money now; it will be worth having a few years from now.

The man who plays too much is at least as sensible as the man who works too much.

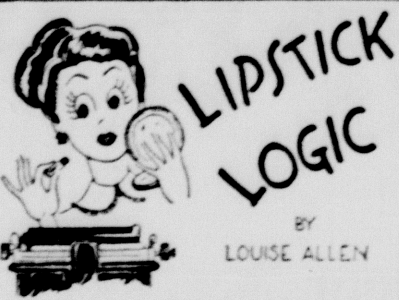

The individualist is one who thinks for himself and, when necessary, by himself.

The nerve of the borrowers is exceeded at times only by the faith of the lenders.

The revolver made men equal and the microphone has made speakers equal.

Most of the news that you read happens because a reporter was around.

Without police protection there would be comparatively little civilization.

Women shoppers, some folks think, are all alike.

Actually, any resemblance they bear to each other is purely coincidental. Some shop by telephone, never go near a store unless they have to. Some insist on buying from the same merchant, even if they have to drive across town for a loaf of bread. Others never develop a speaking acquaintance with any one storeowner.

Certain women shoppers haunt bargain basements. Others would be ashamed to be seen in one. Some buy all their clothes on sale, other shun 'specials' as they would polio.

We saw two of these mismatched buyers out together the other day. They were buying a going-away gift for a friend. One was the hummingbird type. Normally, she'd walk into a store, make a bee-line for one counter, state her business and her price, say "I'll take that one," zoom off to find the next item on her list. The other, by nature, had the manner of a bank examiner.

She wouldn't tell what she was looking for until she had to, would scrutinize the entire inventory before reaching a decision. Furthermore, no decision was final. The clerk would get out her sales book and start to write up the purchase, only to be halted with "Don't you have something in blue?" Or "What about a nightie? She might like that better."

The quickie shopper, who would have bought now and thought later, almost developed amnesia from the strain of stretching a five-minute purchase into a half-hour deal. The thoughtful shopper was frustrated from having so much decisiveness added to her own indecision. And the saleswoman, torn between amusement and annoyance, was near collapse from trying to please both women at once.

Next time anyone asks you about women shoppers, just answer that some spend money and some spend time!

Here's Way to Banish Spilled-Purse Horrors

By Edna Miles

IT'S happened to nearly every woman at some time. The catch on her handbag gives, the bag spills open and its shabby contents scatter over the floor of the restaurant.

In the ensuing scramble by waiters and friends, the owner of the handbag is horrified at the worn wallet, the threadbare comb case, the broken mirror, the comb minus teeth. Things she hasn't looked at for so long that she's stopped seeing them. But other people are taking a look at them now. Horrors!

Solution for this lies in coordinated accessories. Such are available in jeweled versions by stylist Joseph Wiesner of Miami. There's the sparkle of emerald-cut jewels on matching comb, mirror, lighter, compact and cigaret case. There's one style that features tiny blue-and-white cameos on a chalk-white background. There are even miniature picture frames and perfume bottles.

You can start the collection yourself and let your friends and relatives add to it at Christmas time or for birthdays. Buy them as you would fashion accessories and use them proudly.

Matched accessories in chalk white insure that the young lady won't be shamed by her possessions as revealed by this clear Lucite handbag. (Tricketts)

By VERN SANFORD
Texas Press Association

AUSTIN: Beer was tapped for the big pay-off as the Senate rolled out a new tax bill — expected to pour \$108,000,000 in new money into the treasury in two years.

On the 137th day of an overtime session, the Senate passed a many-changed version of the House tax bill. It left the last say to the House and hoped for a quick wind up.

The bill is expected to produce \$62,000,000 during the next two

years, for the general revenue fund. It carried a bookkeeping reallocation feature which will give this fund \$3,000,000 more from current taxes. Thus it offered the House \$9,000,000 more than the \$56,000,000 required to unlock the record billion and a half dollar appropriation bill. It provides about \$44,000,000 in the biennium for highway purposes.

Three round pennies will carry the brunt of the burden of the new tax structure — one cent more on gasoline and cigarettes and a new levy of a penny a bottle on beer.

In this, the sixth main version of a money bill, the Senate swung back to the House's proposal of one cent on gasoline and cigarettes. But the Senate substituted a whopping \$16,000,000 a year additional tax on beer for the House's \$1,000,000 a year increase on beer and wine dealers' license fees.

Final passage was voted 18 to 13.

Stripped out of the Senate passed tax bill were House proposals for a levy on cigars, snuff and tobacco. Added was a token one-twentieth of a cent levy on "dedicated" natural gas — long-term exclusive contracts, payable by the long pipelines — and expected to produce \$2,000,000. Gas pipelines were put under the intangible assets tax.

Dropped were Senate proposals for manufacturing taxes and gross receipts taxes on department stores, hotels and motels. Rejected by the Senate was a gross receipts tax on the metals and chemicals industries.

Sen. Grady Hazlewood, slender, graying member from Amarillo, emerged with the winning combination to unlock the long and confused Senate fight for new revenues.

At Friday's session, Sen. Otis Lock of Lufkin, who termed himself the "coercer sponsor" of the tax measure, offered a new "in between" plan which salvaged part of Governor Allan Shivers' original recommendations and made concessions to an obdurate House.

Lock proposed a 1½ cent increase on gasoline, halfway be-

tween the two cents the Governor wanted and the one cent the House voted; and 1½ cents on cigarettes; along with a 25c per \$1,000 franchise tax levy on corporate stocks. It would bring in the needed \$56,000,000 to the general revenue fund, he said.

But Senator Hazlewood came up with his substitute and it was favored, 22 to 9, over the Lock plan.

The final vote put both House and Senate on record for a one-cent-only increase on gasoline, making the entire bill more palatable for House concurrence.

Beer industry leaders, who had successfully fought off a proposed \$1.30 per barrel increase in the House and also in Senate committee (which would have raised the total rate to \$3.30, or to 1c per bottle) suddenly found their industry saddled with a tax of \$5.30 a barrel—or an additional 1c per bottle tax.

Veterans Land
New batches of indictments against former Land Commissioner Bascom Giles were returned in Travis County. Five indictments charging theft linked B. R. Sheffield of Brady with Giles. Eight charges of forgery were made against Sheffield. Then five more indictments against Giles and Sheffield charged theft and conspiracy of theft.

A court of inquiry on Land Office affairs droned on, questioning all employees of the land office.

Giles' scheduled first trial at San Antonio, on a bribe charge, was postponed until August. Postponement was granted on an affidavit that a House member, Rep. Cecil Storey of Longview, had been employed as one of his lawyers. This was statutory grounds for postponement until 30 days after the end of a session.

Both the trial judge and the district attorney criticized the law forcing such postponement.

Rep. Dolph Briscoe, Jr., of Uvalde, author of a series of bills to clean up the veterans' land administration, immediately put in a bill to restrict employment of legislators. Briscoe's bill would limit the automatic postponement privi-

lege to legislators hired within one week after a case or indictment was filed — or to cases where the Legislator was the only attorney representing a defendant.

Short Snorts

... Governor Shivers vetoed a bill raising speed limits on all highways from 60 to 65 miles an hour and to 70 miles on four-lane divided highways. It would increase traffic deaths and accidents, he ruled.

... In all the turmoil of the tax deadlock the House took time out to pass a constitutional amendment resolution to create mosquito tax districts.

... A badly slashed Trinity River Authority bill passed the Senate. A feature was inserted to allow downriver users additional water above their old "normal flow" rights, without paying for it.

... Rep. J. O. Gillham of Brownfield won House passage of his bill to raise college registration fees from \$25 to \$50 a semester. But it was modified to exempt students working 20 hours or more a week. Sen. Jimmy Phillips of Angleton promised to fight it until adjournment if taken up in the Senate.

... Sen. William H. Shireman of Corpus Christi abandoned his bill requiring lobbyists to register. Opponents amended it until he said it affected public officials more than lobbyists.

... Rep. J. E. Cox's "unfair sales" bill passed the Senate after it had been watered down until opponents said it was unconstitutional — but meaningless even if valid. The Conroe representative's bill was restricted to grocery stores. Its prohibition against selling below cost also prohibited a merchant from limiting sales or refusing to sell his entire stock to competitors at the advertised price. This would enable competitors to buy the bargain merchandise before housewives had an opportunity to take advantage of the advertiser's specials.

Life is an instinct for growth, for survival, for the accumulation of forces, for power. — F. W. Nietzsche.

1. When did the Yugoslav break with Soviet Russia occur?
2. Who is chairman of the House Foreign Affairs Committee?
3. Who is the Foreign Minister of Great Britain?

Here you may open a savings account and by systematic savings soon accumulate funds for various purposes. You will be surprised at the really substantial funds you can accumulate by systematic savings. Perhaps just a little each week to start and soon you will have the saving habit, making weekly savings trips to the First National Bank. The big thing to remember for those who wish to save and get ahead is to save regularly, regardless of the size of the deposit. You will enjoy doing your banking at the First National Bank of Hereford.

SHARP-EDWARDS MOTOR CO.

Dealers in New and Used Cars—"Used But Not Abused"
Auto Loans and Financing
Located at 439 N. Main St., Hereford, Texas
Phone 730

They operate a complete new and used car service, and are equipped to serve you in the best cars and trucks for your every need. They are helping in no small part in the commercial and industrial progress of the community. The personnel of Sharp-Edwards Motor Co. consists of men of high standing in the community, and is under able management, and enjoys an ever increasing patronage throughout the surrounding territory. It makes no difference whether it is a new or used car or truck you desire, you can secure here on the most favorable terms that the market affords.

Quality is one of the guiding influences of this firm. The merchants and consumers alike have learned this and rely upon them for a superior quality in cars and trucks. There is no more public spirited citizen in the community than the management of Sharp-Edwards Motor Co., and in making this onward review of Sharp-Edwards and Randall Counties, we wish to compliment them and direct your attention to their establishment as one of the reliable institutions of the community which has added to the development and progress of this section of the state. We urge you to visit them the next time in Hereford, satisfaction is assured.

DEARING WRECKING COMPANY

Specializing in Industrial Engine Parts, Auto Parts & Supplies
Irrigation Supplies — Parts
Located West of Hereford, Texas
Phone 1830

An important factor in the business progress of the community, this firm has established a well deserved reputation for dependability and efficiency in all types of engine parts and supplies.

The Dearing Wrecking Company is under the direction of men who have always had at heart the best interest of the community, in which their valued enterprise is located, and one of the firms that keeps the wheels of progress turning in the right direction. Along with the parts and supplies handled in this area, the Dearing Wrecking Company is perhaps the largest handler of parts in this section. It has always been the policy of this firm to provide the customers with friendly advice and guidance on the complicated matters peculiar to the business.

You may be assured when you visit this establishment that attention and friendly interest will be accorded you in your special problem. When you contact this firm with your auto parts and supplies you can rest assured that you are dealing with a concern that is interested in the welfare of this area, and will therefore make every effort to see to it that you get the best in service and price. In making this annual review of progressive business firms of Hereford and Deaf Smith county, we wish to compliment the Dearing Wrecking Co., and its employees on the manner in which the business is operated.

HINDS UPHOLSTERY SHOP

Make Your Old Furniture New With the Latest Fabrics
Custom-Built Furniture Refinished and Recovered
Located at 310 N. McKinley, Hereford, Texas
Phone 1092

The services of this upholstery shop is a constant reminder to people to keep their places in the best of condition as they do high class work at a price that meets any and all competition as to quality and prices.

This firm can restore any piece of furniture that has not been damaged beyond recognition. In the line of general upholstery they render a distinctly superior service. Many people do not realize that the furniture they may now have is much better constructed than most new furniture. Upholstering those pieces at present prices is the best investment to be made. This firm carries a most comprehensive line of fabrics, latest note in quality and styles. You can match any color scheme you desire at this upholstery shop in Hereford. The able management of this concern has constantly adhered to a "Square deal to all" policy of giving the maximum quality of good service consistent with safe and sound business principles. Through their straight-forward dealings with the people of this section the management has made many friends for the shop and they have always taken an active interest in their fellowmen, realizing that a concern that is not progressive will wither and die because of its environment.

MILBURN SERVICE & USED CARS

For the finest in used Cars and Trucks
Located at 225 N. Sampson, Hereford, Texas
Phone 16

This well known firm has many satisfied patrons in all the surrounding territory who have learned real motor economy through their services. They are pleased to give you any and all information about the cars and trucks they offer and they are men upon whose word you can depend. The real test for an automobile comes in the manner in which it stands up on the road. Those who have never enjoyed the satisfaction of driving one of their automobiles cannot fully appreciate the wonderful value offered at such a reasonable price. The manager enjoys the distinction of being an authority on the value of cars and trucks, and if you are trading in your car, you should have their appraisal before making a deal.

They offer guaranteed used cars for a small down payment and the remainder can be arranged on easy monthly payments.

The management of this concern is one of the well known businessmen of this section and has taken an active interest in the onward progress of this part of the state.

We take pleasure in this business review of this section of the state in directing your attention to the Milburn Service and Used Cars, and we are more than glad to recommend them to all our readers.

50th Wedding Anniversary Is Celebrated

Approximately 80 friends called at the home of Mr. and Mrs. G. C. Cook Sunday afternoon between the hours of 3 and 5 to honor the couple who were celebrating their 50th wedding ceremony.

Mrs. Loretta Cole Dunsworth of Wichita Falls, daughter of the couple, greeted the guests. David Dunsworth of Wichita Falls, only grandson present, registered the guests. Mrs. J. W. Cole of Abilene, daughter-in-law of the celebrants, showed the many lovely gifts.

Bouquets of chrysanthemums, carnations, asters and other beautiful flowers, gifts from friends, were arranged in attractive groupings throughout the entertaining rooms.

Centering the beautifully appointed serving table was a golden ring supporting a golden "50" and having wedding bells hanging from the under side. Within the up-standing ring and around the base was an arrangement of white chrysanthemums, carnations and fever few.

Mrs. Harvey Cook presided at the punch bowl. Mrs. Leslie Neal and Mrs. Mae Johnson served the cake which was baked as double wedding ring and decorated with white icing and golden bells.

Mrs. J. I. Payton and Mrs. R. C. Yarbrough completed the house party.

Mrs. Dunsworth and J. W. Cole of Abilene were present to share the honors of the day with their parents. Another son of the couple, Cleatus, of Ft. Worth, was unable to attend.

FAIRVIEW H. D. CLUB MEETS FRIDAY WITH INEZ SHIPMAN

The Fairview Home Demonstration Club met Friday afternoon with Inez Shipman as hostess. The meeting was called to order by the president, Annie Wesley. Georgia Rogers and Nan Earley Shipman each directed a game for the group. Roll was called and the minutes were read by the secretary.

Annie Wesley reported on the McKenzie State Park at Lubbock; La Venia Emerson reported on the Big Bend National Park at Big Bend, and Lizzie Wesley reported on the Longhorn National Park.

One new member was added to the club roll at this meeting.

The next meeting will be with Annie Read on June 17.

Lemonade and cookies were served to Annie Wesley, Evelyn Shipman, Madge Sutton, Grace Schaeffer, Georgia Rogers, Edna and Fern Wilson, La Venia Emerson, Lizzie Wesley, by Nan Earley and Inez Shipman.

Money for your old air-conditioner! Trade it in now on a new model at Western Auto Store. 91t

Mr. and Mrs. P. M. Wilson and Mr. and Mrs. John W. Wilson spent from Thursday until Monday in Austin visiting relatives and attending the Old Timers' Reunion at Liberty Hall. This was the first time in 55 years that P. M. Wilson had attended this reunion where his home had been when he was a young man.

Mrs. Patricia Thompson spent the week-end in the home of her mother, Mrs. Bryan McDonald. She taught in the El Paso schools last year.

Mr. and Mrs. Felix Pierce accompanied by his sister visited with relatives in Lubbock and Dimmitt Sunday.

Mr. and Mrs. C. G. Pond and sons left Wednesday for a 10 day vacation through Oklahoma and Arkansas.

Mrs. Ardis Stamper of Tulsa, Okla., spent the week-end with her sister and husband, Mr. and Mrs. Frank Morgan.

Mr. and Mrs. H. H. Johnson and their son, Stanley, are spending ten days in Berkeley and Los Angeles visiting with friends.

The prosperity of the cities is greatly increased by extent of their trade which reaches for miles around their chosen field of endeavor and brings new people to the community. This well known firm started its business career upon a solid foundation knowing that by quality material and workmanship they could make a fair margin of profit. Fair, honest business methods at all times, and by careful organization, they have integrated their efforts to form a smooth-functioning construction company.

Those who have enjoyed the capable services of the Wallace Construction Company, recognize it for the friendly above board methods of doing business. Whether the contract is established on a cost-plus or a fixed fee basis, the owner may always be assured that the cost estimated is reasonable and is based on the lowest possible cost compatible with sound construction requirements. When you contact this firm for a job, you can rest assured that you are dealing with a firm that is interested in the welfare of this area and will therefore make every effort to see to it that you get top quality materials and workmanship.

With the utmost confidence we refer all our readers to this well known firm in Hereford, and assure you that from every point of consideration you cannot beat the service offered by this reliable firm, and we in this review feel in referring our readers to this firm in need of this important service.

CARD OF THANKS

It is when the heart is broken, when black losses seem more than one can bear, that friendship comes to heal the shattered heart and give faith and courage to face the future. Friends, without your gifts, your words and deeds of sympathy and kindness the future would indeed be dark, bleak and barren. You, our friends, have given us hope, faith and courage to meet our loss of father, husband, and property. With God's help and yours, our burdens have been made lighter and our future brighter.

May God's richest blessings abide with each of you always.

Terri, Billie Art, Jimmy, Bobby and Lucille Barnhart.

We wish to express our sincere appreciation to everyone who has been so thoughtful and so concerned by the letters, cards, telegrams, telephone calls, flowers, good wishes and prayers in our behalf during the time of Tom's illness. We feel that each of you has had a definite part in his recovery. We are starting home next week, but our progress will be slow, governed by Tom's ability to travel. May God's richest blessings dwell with each of you. Mr. and Mrs. T. H. Knighton.

We wish to take this opportunity of expressing our thanks to each of you for the kindnesses shown us at the time of the passing of our loved one. Words cannot express our appreciation for the beautiful flowers and the lovely food served to us. Rube Lindsey, Jim Boone, Charles and James Boone, Mr. and Mrs. Pat Boone, Mr. and Mrs. Howell, Rev. and Mrs. John Boone. 9p1

Fan in Attic Is Very Helpful

COLLEGE STATION: An attic fan isn't a substitute for complete home air conditioning but is a practical, inexpensive means of gaining relief from oppressive summer heat.

Properly used, an attic fan can be very satisfactory, says W. S. Allen, extension agricultural engineer. The fan may do little or no good during the daytime. But if used in the evening, heated attic air is exhausted and cooler air from the outside pulled into the house.

This process will cool the entire house during the night and if windows are closed during the day, lower temperatures may be maintained within the home, says Allen.

One of the most important factors to consider when buying an attic fan, says the engineer, is its size. Get one large enough to change the air in the house every minute. For example, a house with 1,000 square feet of floor area and eight foot walls contains 8,000 feet of volume. A fan with a delivery rate of at least 8,000 cubic feet of air per minute should be installed.

Generally, place the fan near a partition wall or other solid support to prevent vibration. Locate the inlet grill of the fan in a central hallway, Allen suggests. Follow the manufacturers' directions closely, he adds.

4-H Clubs Will Go to College

COLLEGE STATION: 4-H Club members from throughout Texas will converge on College Station June 8-10 for their annual 4-H Roundup. Some 2,000 delegates and adult leaders are expected to attend.

Delegates to the 1955 meeting will have a choice of 17 short courses in various subject-matter fields and will be further acquainted with the facilities of A. & M. College, Floyd Lynch, state 4-H leader, announced.

State winners also will be determined in 18 judging and team demonstration contests, ranging from field crops to dress making.

Delegates to Roundup are chosen on the basis of their accomplishments and leadership in 4-H work. Two boys and two girls from each county may attend, an adult leader—either a local leader or extension agent accompanying each group.

The popular "Chuckwagon" supper and Share The Fun Festival are again among attractions which will keynote the three-day meeting.

All 4-H activities, including Roundup, are under the supervision of the Texas Agricultural Extension Service.

If there be a crime of deeper dye than all the guilty train of human vices, it is ingratitude.

Summer Brings Diseases Among the Children

AUSTIN: The summer season always brings an increase in the incidence of dysentery, diarrhea and enteritis, all of which are major menaces to the lives of small children, annually causing the death or illness of hundreds of Texas youngsters.

Dr. Henry Holle, Commissioner of Health, declares that the chief cause of these intestinal diseases are contaminated milk, water or food; allowing the child to get over heated or exhausted; excessive sugar in the infant's formula and foods that have been improperly refrigerated.

All foods should be clean and fresh and all leftovers should be refrigerated so as to avoid spoilage. The utmost care should be used in preparing the infant's formula which should, of course, be prescribed by a physician and his recommendations as to sanitation precautions and correct refrigeration should be implicitly followed.

The Commissioner of Health warned parents especially of the disease transmission by flies. Children in any home that is not free from flies are in danger of contracting dysentery or other intestinal diseases which may be fatal.

If dysentery or diarrhea symptoms appear in your child, call your doctor immediately, Dr. Holle advises. His treatment of the disease is your best insurance against fatal results, since such diseases are really a very serious threat to the child's life. Do not depend on home remedies for diarrhea or dysentery; consult a competent physician and let him start the safest and best treatment which medical science has available for combatting these diseases.

Texas Farmers Vote on Wheat

Texas wheat farmers will join with the nation's growers June 25 to decide in a national referendum whether marketing quotas will continue in effect for their 1956 crop. The State Agricultural Stabilization and Conservation Committee urges Texas producers to participate in the vote.

"Under the present surplus situation, we are required to proclaim marketing quotas," Secretary of Agriculture Ezra Benson said.

"We will have almost as much wheat in the total supply after harvest this year as we had a year ago. In other words, we will have enough wheat to take care of all our domestic and export needs for two full years."

Benson has said that wheat is one of the major problems facing the Department of Agriculture this year.

Any producer in commercial areas who will plant more than 15 acres of wheat for harvest as grain in '56 is eligible to vote in the referendum. Two-thirds of the vote must favor marketing quotas before they can be put into effect. Local voting places for the June 25 balloting will be announced for each county.

The available supply of wheat for the 1955-56 marketing year is 66 percent above the considered "normal supply." The Secretary must call for marketing quotas when the normal supply exceeds 20 percent.

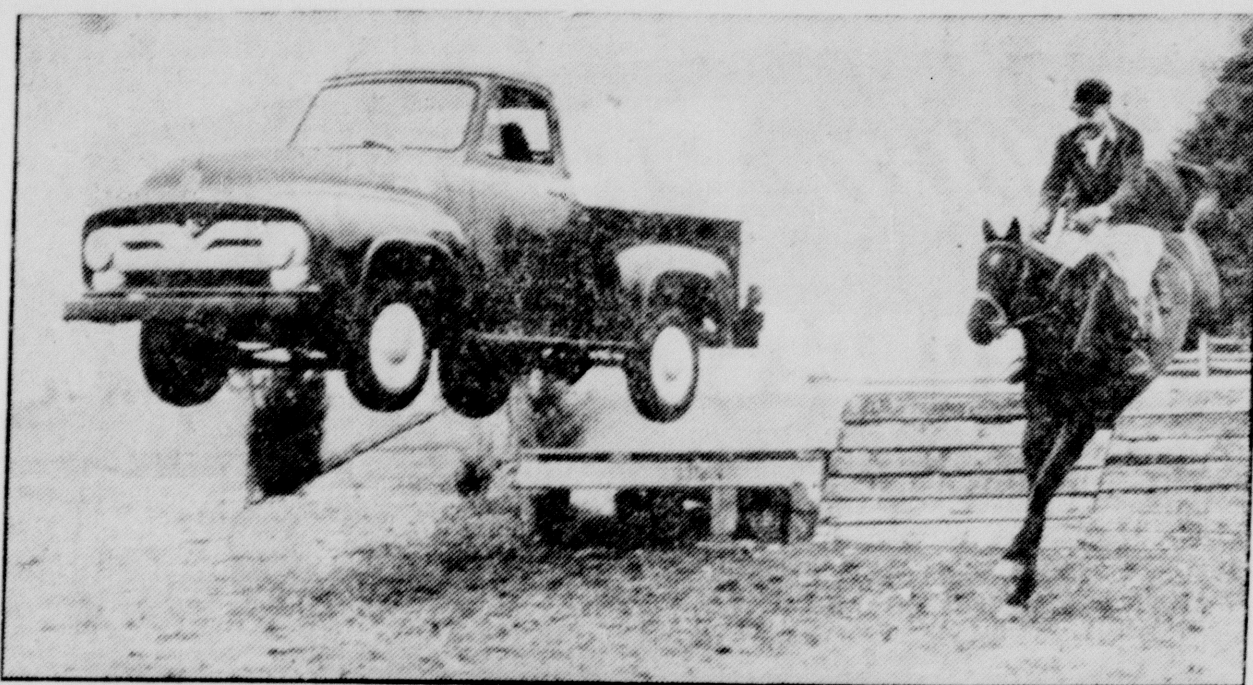

In the referendum last summer, 73.3 percent of the farmers voting approved the quotas.

The Old Age and Survivors Insurance Fund, from which social security payments are made, rose \$1,676,259,000 in a year's time to reach \$20,042,615,000 on June 30, 1954.

A man, though he be gray-haired, can always get a wife. But a woman's time is short.

Put not your trust in money, but put your money in trust. — O. W. Holmes.

Kingsize cigarette prices are raised at wholesale.

TALLY-HONK—Mass obstacle jump by 133 horses takes place as Bill Baylor guides 132 of them, stabled under the hood of his pickup truck, over a hazard during a foxhunt at Charlottesville, Va. Baylor says that his iron steed's speedometer clocked the four-legged thoroughbreds at between 35 and 40 miles per hour during the course of the hunt.

SWEET-TOOTH PASTE — Putting the squeeze on the latest breakfast-table hazard—jelly in a toothpaste-like tube—is Richard Piendzik, of East Cleveland, Ohio. The new product smears just as efficiently as old-fashioned jar-type jelly, to judge from Richard's face.

Hoppers Spread in State This Spring

COLLEGE STATION: Grasshoppers are hatching fast in some Texas areas and farmers are advised to take action before they migrate to cotton and other field crops. The pests feed on succulent green foliage.

The main hatches of differential or yellow-legged grasshoppers should be complete as far north as Kaufman county this week, Dr. F. M. Fuller, extension entomologist, reports.

Fuller points out that insecticides are most effective if applied just after a hatch, while the "hoppers" are still small. He suggests spraying field margins, roadsides and ditch banks with chlordane, dieldrin or toxaphene.

If control measures are withheld until the pests migrate into nearby crops, control measures are more costly and usually not as effective.

Bible Verse to Study

"Every one that is proud in heart is an abomination to the Lord."

It's the new kind of hardtop—
The 4-Door Riviera!

THERE seems to be some confusion about what a hardtop really is, and we'd like to set the matter straight.

A hardtop is a car that looks like a Convertible with the top up—but has a solid steel roof overhead—and no center posts in the side window areas.

Up until just recently, it could be built in volume only with two doors—not more—because it would take wholly new structural principles to hinge another set of doors without floor-to-roof center posts.

But Buick came up with those new structural principles and is now building—in volume—hardtops with four doors.

You see one pictured here. It's the 4-Door Riviera. And it's taking the country by storm...

Because here, at long last, is an automobile with the sleek and sporty styling of a true hardtop—but with separate doors for rear-seat passengers, plus the added room of a full-size Buick Sedan.

On top of that, this beauty is all Buick—with the buoyant ride of Buick's all-coil springing—the walloping might of Buick's record-high V8 power—the whip-quick

getaway and sizable gas savings of Buick's spectacular Variable Pitch Dynaflo.*

And it's available in Buick's two lowest-priced Series—the budget-tagged 188-hp SPECIAL, and the high-performance 236-hp CENTURY, illustrated here.

Come visit us for a first-hand meeting with the 4-Door Riviera—and see how quickly and how easily the last word in automobiles can be yours.

*Dynaflo Drive is standard on Roadmaster, optional at extra cost on other Series.

VACATION TIME is almost here

Let us prepare your car for the occasion.

To assure you of a care-free trip — and for the summer drives, we will check your brakes, points, fan belt, pack front wheels, check exhaust system, radiator and tune motor.

We will give your car the attention as if it was our own — all this for a VERY REASONABLE AMOUNT.

WASHINGTON AND "SMALL BUSINESS"

By C. WILSON HARDER

Congress now faces fact it is bad business to rob Peter to pay Paul. However, situation has been that of robbing American children to pay foreign monopolies under guise of foreign aid.

Administration's public school aid proposal points up debate.

One of Republic's strong cornerstones is system of free public schools, traditionally responsibility of local communities.

However, due to fact Federal government has taken over revenue sources needed for local government and schools to throw away around world, American school system is in dire need.

Authorities claim today a million children cannot attend school for full day due to lack of facilities. Other estimates claim a \$10 to \$12 billion school building program is needed if American children are to receive their birthright "one worlders" sold for a mess of pottage.

Local communities cannot tax any more for schools. Yet idle school age children are breeding ground for future misfits. And obviously communistic doctrines find strongest support among misfits.

By refusing to vote new billions asked for foreign aid, plus freezing additional foreign aid billions voted but not yet spent, Congress could solve school problem. These billions could be returned to states on a pro-rata basis for school needs.

But instead, it is asked of Congress to set up plan which may or may not solve problem, but will do much to help investment bankers.

© National Federation of Independent Business

A sum of \$7 billion is sought. The plan is for Federal government to guarantee local communities credit, and even make direct loans when a school district cannot get money at a reasonable rate of interest. The reasonable rate of interest is considered not over 3 1/4%.

Thus, a pitiful situation involving nation's children is being used to promote further indebtedness, further enrichment of huge investment interests.

Already tax payers are paying \$6 billion per year interest on federal debt. Three per cent interest on \$7 billion for schools, plus 3% on another great domestic plan, financing of \$50 billion in highways, would bring yearly interest charge up to \$7,710,000,000 year, or \$48 for every man, woman and child in nation.

This appears strange financial reasoning to a government which talks about "pay as you go"; which enforces this doctrine in collection of income taxes.

Yet amount of money thrown away on foreign aid would have taken care of nation's school and highway needs.

Some say fact does not yet seem to have dawned on Washington that money does not grow on trees.

Many feel because of emotional element involved, school aid program will be passed by House. But in Senate, where head of the finance committee, Sen. Harry Byrd, (D. Va.) has already stated solution to American financial problem is to eliminate all foreign aid, it is quite possible that a different method will be taken.

Issue appears to boil down to fact that America cannot afford both foreign aid and education for American children. One or the other will have to go.

and court costs for its handling by the clerk, in proper cases many dollars may be saved for the heirs by adequate provisions of a will.

FINDS FREAK MONEY

New York — Although Mrs. Hannah H. O'Connor has received offers up to \$100, she has turned them all down for a freak bill she found recently in her pay envelope. The bill is marked \$10 on one side and \$1 on the other. It is a mistake that happens maybe once in 150,000,000 times, according to the U. S. Bureau of Engraving.

PUNCTUALITY

People who are late are often so much jollier than the people who have to wait for them. —E. V. Lucas.

Better be three hours too soon than one minute too late. —William Shakespeare.

I could never think well of man's intellectual or moral character, if he was habitually unfaithful to his appointments. —Nathaniel Emerson.

One backward step, one relinquishment of right in an evil hour, one faithless tarrying, has torn the laurel from many a brow and repose from many a heart.

"Better late than never," is not so good a maxim as "Better never late." —Anonymous.

Punctuality has been called the politeness of kings. It's more than that: it's plain good business. —Carter Dickson.

Life is a watch or a vision Between a sleep and a sleep. —Swinburne.

R. C. A. improves its color TV tube, plans mass output.

Life is a wave which in no two consecutive moments of its existence is composed of the same particles. —John Hyndall.

Life is a fatal complaint, and an eminently contagious one. —O. W. Holmes.

The great business of life is to be, to do, and to do without, and to depart. —John Morley.

The U. S. draft of peace-atom plan is sent to seven nations.

SIXTH LIVING GENERATION

Kokomo, Ind. — Mark Cory Ingels, born on May 4th to Mr. and Mrs. James Ingels of Kokomo, represents the sixth living generation in his family. The baby's mother is 19; his grandmother, Mrs. James McWay is 34; his great-grandmother, Mrs. Hazel Hubbard is 52; his great-great-grandmother, Mrs. Meta Keever, is 68; and his great-great-great-grandmother, Mrs. Mary Katherine Walker, of Nicholasville, Ky., is 98.

Properly Drawn Will May Save Estates of Texas

A properly drawn will can be the means of short-cutting many legal formalities, and save a great deal of time in distributing the estate of a decedent among his rightful heirs. It may also serve to save many dollars in legal fees and court costs.

As an example, whenever a person dies without a will and it is necessary for the probate court

to appoint an administrator of his estate, the person so appointed is required to post a bond. This bond is for the purpose of insuring the faithful performance of his duties. When signed by individuals, the amount thereof must be double the estimated value of the personal property of the estate plus a reasonable amount to cover prospective rents and other income from real estate involved.

When issued by a bonding company, the estimated value of the personal property need not be doubled. The administrator's bond must be kept in force until the estate is finally closed and he is discharged from his obligation by the court.

The same rule applies to an executor under a will, unless the testator has specified that no bond shall be required. This provision may be inserted or left out of the will at the option of the maker. Needless to say, there are situations in which the bond serves a real purpose. But when not needed, the statutory requirement may prove a distinct annoyance to the executor upon the estate in the form of annual premium payments.

Another example: A court appointed administrator may not sell any property of an estate without an order of the court authorizing him to do so. He must make application to the court for approval of each sale. The court must be advised of and approve the sales price and the manner in which the same is to be collected. Similar provisions apply to the making of mineral leases and other transactions.

These provisions apply equally to the executor of a will, unless the testator has freed him from such requirements. A single short paragraph inserted in a will designating him as an independent executor in appropriate phraseology may serve this purpose. Then he will have a free hand to dispose of property upon short notice whenever a favorable opportunity arises, with a minimum of legal formality.

Since every application or other paper filed with the probate court and every order obtained from the court involves the expenditure of attorney fees for its preparation

Here's where all that wonderful performance begins!

They're all true—all the wonderful things you hear about Pontiac's great performance.

The way it sweeps uphill or down with the same effortless ease. The tremendous burst of passing power that answers the nudge of your toe. The thought-quick response in stop-and-go traffic that makes the car seem part of you. The smooth, quiet way it goes about its business however hard or far you drive.

Lift the hood of a Pontiac and you'll be face to face with the reason. That compact power plant nestled there may look much like other V-8's—but that's where your eyes deceive you!

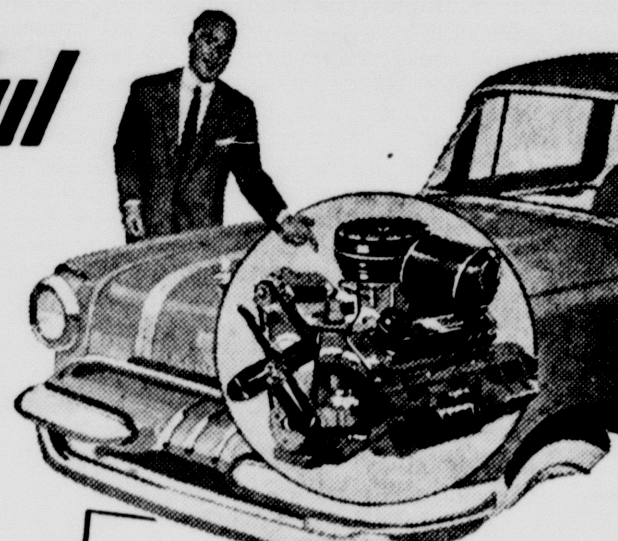

The Strato-Streak V-8 is in a class all by itself—filled with engineering "firsts" that make it the mightiest engine ever to appear

in Pontiac's price field. And it's one of the many Pontiac advantages you can't get anywhere else. Pontiac alone gives you the terrific drive of Strato-Streak performance.

This sensational performance, remember, comes in a distinguished, future-fashioned beauty that is tagged with a price any new-car buyer can readily afford.

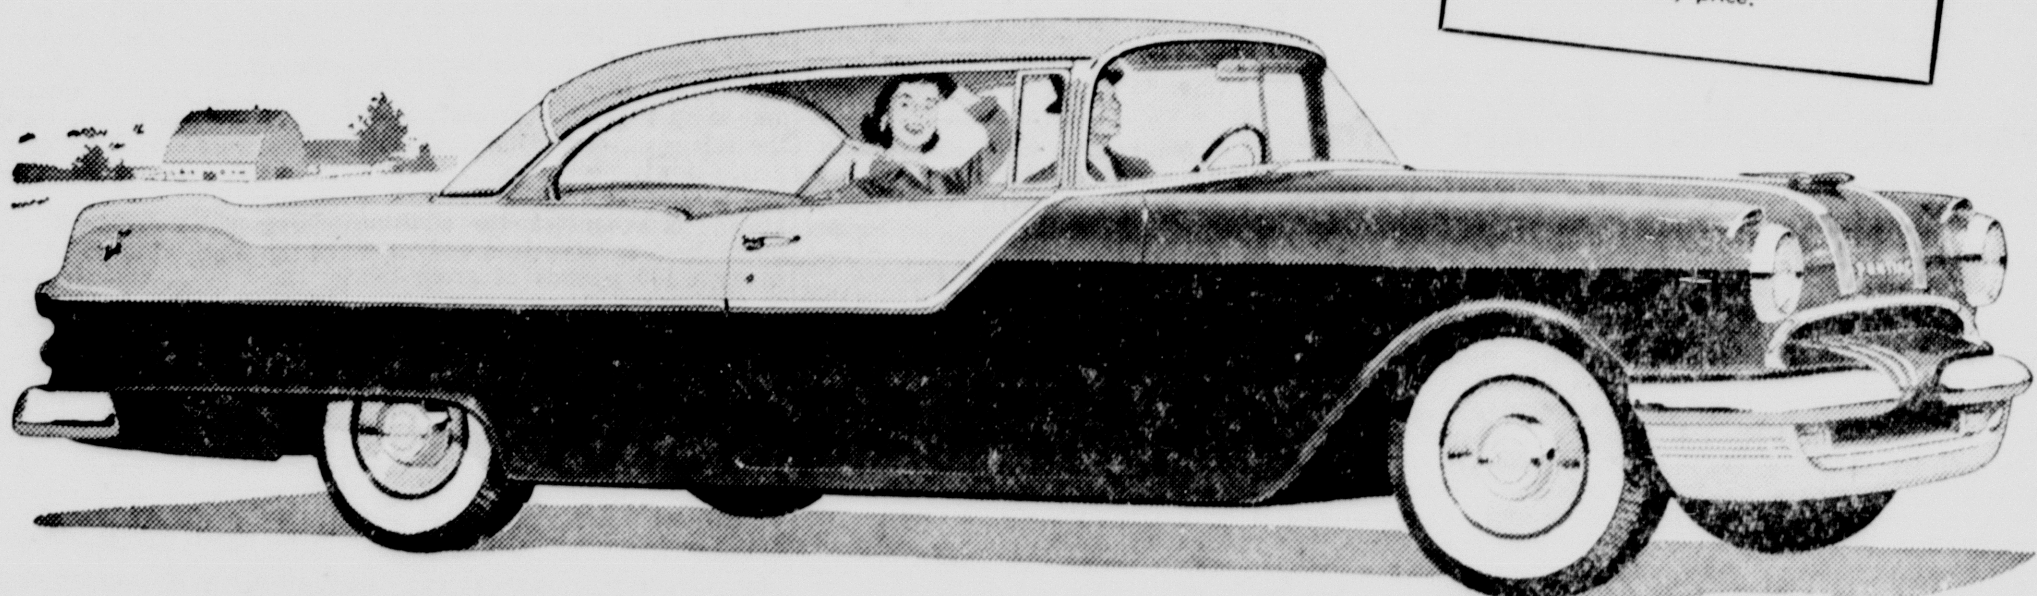

Here's your wide-open invitation to come in and try the result—the fastest-selling Pontiac of all time. The car is ready whenever you are! Make it soon.

Pontiac

Most Modern Engine in Any Car THE STRATO-STREAK V-8

The Strato-Streak V-8 is one of the great landmarks of automotive progress—the newest and most advanced engine you can buy. Standard with all three lines of Pontiacs, it develops 180 H.P. and reaches a blazing 200 H.P. with the four-barrel carburetor, optional at extra cost. Either way you get the most power per dollar delivered by any car at any price.

County Judge Talks Tuesday at Canyon Rotary Luncheon

County Judge Roy Joe Stevens talked on the duties of his office at the Rotary Club luncheon. He described the office as the "catch-all" of County business. With a population estimated at 20,000, there are plenty of jobs for the County Judge.

He described a part of his work in various fields: Holding elections; school superintendent; juvenile judge; probate judge; criminal and civil cases in a limited amount; welfare agent; chairman of the commissioners court; granting temporary drivers licenses; social security problems.

Just now there is a definite movement on foot to build a new court house in Canyon. The present court house was erected in 1908 at a cost of \$50,000. No steel was used in construction. There is a surplus of \$200,000 which could be used for a new building. Lamb county built a court house costing between \$700,000 and \$800,000. Architects ad-

vise that a building could be erected for about \$600,000, and with the \$200,000 on hand the cost would be reduced to \$400,000.

All county deed records have been microfilmed at a cost of \$5,000, but this does not include many vital records. The wiring throughout the building is defective and inadequate.

The Judge was asked about highways in the county. The county has received definite word about the highway south, but nothing on the highways north or west.

Dr. Dudley Moore pointed out the growing number of aged persons who must be treated, and the burden which they had become in the Neblett Hospital.

The number of visitors was exceedingly light, including: Henry Rockwell of Houston; Thurman Whitte, E. C. Wagner, Derbert Dowell, all of Amarillo; Bob Wear of Canyon.

Mr. and Mrs. E. E. Plank and Dr. and Mrs. Charles Nester were at the Golden Anniversary meeting of Rotary in Chicago last week.

Mrs. T. S. Stevenson sent a bouquet of roses to the meeting.

Be proud of Canyon—Clean Up; Paint Up; Modernize!

Boy's Softball League Will Start Thursday

Canyon Boy's Softball League begins regular league play on Thursday, June 9th, at 7 p. m. There will be two games each Monday and Thursday nights.

Boys wishing to play and not yet signed should see any team manager or the league director.

The league is in great need of more managers. It is desirable to have two managers for each team so that at least one can always be present.

The following eligibility and rules have been set up:

1. Each player must be a resident of Canyon. Summer residence will be sufficient.

2. Minimum age will be nine years prior to June 1st this year. Maximum age is 14 years. When any player reaches his 15th birthday he becomes ineligible.

3. Each team can use only one 14 year old boy at a time. (A team may start with two 14 year olds if a full team is not present at game time).

4. Each team must use at least one of its youngest members at all times.

5. GAME TIME: First game at 7 p. m. with 7:10 deadline. A team may start with as few as six men present. If fewer are on hand then the team must forfeit.

Second Game: Follow immediately after the first game. Must start by 8:45 p. m.

The 10-run rule will be in effect after five even turns at bat. 6. Protests may be made only by a team manager and only to the chief umpire.

Following is the schedule for games for the first half of summer:

June 9: Taylor and Sons-Taylor-Evans; Cooper's-Bella's.

June 13: Cooper's-Sternberg's; Bella's-Foster's.

June 16: Taylor and Sons-Foster; Taylor-Evans-Sternberg's.

June 20: Cooper's-Taylor-Evans; Taylor and Sons-Bella's.

June 23: Sternberg's-Foster; Cooper's-Taylor and Sons.

June 27: Bella's-Sternberg's; Foster-Taylor-Evans.

June 30: Cooper's-Foster; Sternberg's-Taylor and Sons.

July 4: Make-up date.

July 7: Bella's-Taylor-Evans; Make-up game.

Mr. and Mrs. H. D. Curtis have returned from a trip to the Lake of the Ozarks where Mr. Curtis enjoyed fishing. They also visited Mrs. Curtis' aunt, Mrs. Jessie Kimber, at Buffalo, and her uncle, J. A. Miles at Fayetteville. They went through Bentonville and stopped to visit with Mr. and Mrs. J. W. Shook. Mrs. Curtis said the Shooks have about a block of land with a lovely large home and a beautiful flower and vegetable garden. The Shooks are both well and asked to be remembered to their friends in Canyon.

Guests in the home of Mrs. W. S. Myers over the week-end were Mr. and Mrs. G. G. Cook of Denton, Mr. and Mrs. Tray Cook of Denton, Mr. and Mrs. Ora Cook of Amarillo, a niece and her son from Big Spring, Mr. and Mrs. Alvah Doak, Mr. and Mrs. Bud Myers, Mr. and Mrs. S. W. Myers and children, all of Lubbock, and Mrs. Bob Combee and daughter from Amarillo.

THE STATE OF TEXAS To any Sheriff or any Constable within the State of Texas—GREETING: You are hereby commanded to cause to be published once each week for four consecutive weeks, the first publication to be at least twenty-eight days before the return day thereof, in a newspaper in Randall County, Texas, the accompanying citation, of which the herein below following is a true copy:

CITATION BY PUBLICATION THE STATE OF TEXAS To: Jimmie M. Brockwell, Defendant, Greeting: YOU ARE HEREBY COMMANDED to appear before the Honorable 47th District Court of Randall County at the Courthouse thereof, in Canyon, Texas, by filing a written answer at or before 10 o'clock A.M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 7th of June A.D. 1955, to Plaintiff's Petition filed in said court, on the 7th day of June A.D. 1955, in this cause, numbered 2948, on the docket of said court and styled Adelia M. Brockwell, Plaintiff, vs. Jimmie M. Brockwell, Defendant.

A brief statement of the nature of this suit is as follows, to-wit: A suit for divorce, as is more fully shown by Plaintiff's Petition on file in this suit.

If this citation is not served within ninety days after the date of its issuance, it shall be returned unserved.

The officer executing this writ shall promptly serve the same according to requirements of law, and the mandates hereof, and make due return as the law directs.

Issued and given under the seal of said court at Canyon, Texas, this 7th day of June A.D. 1955. Attest: MAVIS HILL, Clerk, District Court Randall County, Texas.

(SEAL)

High Records By W. T. Studes

Ten persons making perfect records were among the 57 students named to the spring semester honor roll at West Texas State College by Dean Walter H. Juniper. The honor roll here is made up of the upper five per cent of the undergraduate student body.

Compiling the highest grade of "A" in all work were Henry D. Chumney, Jr., Amarillo; Marilyn Cowan, Amarillo; Margaret Harrison, Canyon; Patricia Hearn, Canyon; Robert W. Hunt, Portales, N. M.; Dana McDowell, Canyon; Willitta Olds, Pampa; Mary Ann Reid, Amarillo; Gerald Porter Risley, Amarillo; and James J. Sullivan, Amarillo.

Others making 2.57 or better of a possible 3.00, were Florence (Bee) Chinn, Borger; Juanita Rose, Tulsa; Harold D. Bier, Clarendon; Roy Lowe, Amarillo; Sammie Mills, Pampa; Barbara Wilson, McLean; Mary Lou Bailey, Quitaque; Charles Boren, Kerrick; Gary German, Borger; June George, Kress; Marval Harrison, Amarillo; Floyd Henson, Canyon; Mary Ann Hunter, Texline; Carolyn Jones, Hart; Cecil McBride, Amarillo.

Jane Ann Hall, Briscoe; Leroy Dickerson, Canyon; Patricia Jo Young, Pampa; Emily Joe, Amarillo; Juanita Townsend, Seagraves; James Cornette, Canyon; Virginia Iverson, Canyon; Edwin Roberts, Amarillo; Inelle Cox, Clarendon; Jo Ann Mickey, Canyon; Frances Riley, Amarillo; Zell SoRelle, Amarillo; Otis Farmer, Hugoton, Kans.; Beverly Williams, Pampa; Donita Pliskin, Perryton; Mignonne Oliver, Dalhart; James M. Scott, Borger.

Margaret Stroud, Amarillo; Billy Wayne Waldrop, Breckenridge; Ann Dorris, Ranger; John E. Miller, Canyon; Marguerite Alberty, Amarillo; Sherry Benson, Hereford; Nancy Board, Amarillo; Geneva Bond, Ackerly; Frances Cunningham, Canyon; Henry F. Eason, Willard; Clarence Flanagan, Amarillo; Monroe Latham, Vigo Park; Ted Briggs, Canyon; Donald Vance, Panhandle; and James Hodges, Canadian.

Summer Livestock Feeding Discussed

COLLEGE STATION: Protein supplements, minerals and plenty of roughage form the necessary combination for keeping livestock healthy and growing during the dry summer months when green grazing is short.

Too many producers overlook the protein supplement and mineral part of this combination, according to U. D. Thompson, extension animal husbandman. Livestock need more than dry grass — oft times the only feed available in mid-summer.

Thompson suggests supplementing the roughage, whether it be dry pasture, baled hay or bundles with two pounds of cottonseed meal or cake for each animal daily. Research has shown that 41 per cent protein supplements are the most economical to feed.

Granulated salt and steamed bone meal supply the necessary minerals, Thompson says. These may be fed free-choice separately or in combination.

By creep feeding, producers can lighten the load on mother cows and market heavier calves. Start the calves on oats, Thompson suggests, slowly reducing the oats and adding corn. When all green grazing is exhausted, the addition of 10 pounds of cottonseed meal to each 100 pounds of grain mix is recommended.

LONG WAY 'ROUND "The world is round, isn't it?" "Supposed to be, yes."

"Well, if I wanted to go east I could eventually get there by going west, couldn't I?" "Say, what are you, a taxi driver?"

Be proud of Canyon—Clean Up; Paint Up; Modernize!

Fairview Breezes

We received 90 inch of rain Monday evening.

S. A. Evans underwent surgery for acute appendicitis Wednesday. He is in a Plainview hospital and was resting well Saturday.

Mr. and Mrs. Junior Lowery visited her father, S. A. Evans, in the hospital Wednesday evening. Rev. Earl Landtroop and Mr. and Mrs. G. E. Wesley enjoyed lunch in the H. H. Shipman home Sunday.

We were glad to welcome Mr. and Mrs. F. O. Amerson to church Sunday morning. After church services, Miss Lavenia Amerson accompanied her father and her new step-mother to Amarillo to visit relatives.

Mrs. J. W. Wesley, Mr. and Mrs. Wayne Wesley and Debbie, Mrs. Wyley James and son, Neal, visited a short time Friday with Mrs. Serena Bryan who is able to be up and working around the house some.

Those from this community attending the funeral of Joe Lange at the Catholic Church in Happy Friday morning were Mesdames Woodrow Wesley, J. W. Wesley, H. H. Shipman and Mr. and Mrs. Wyley James. Tom Rogers and Serena Bryan were able to go to the cemetery to be with the relatives and friends of Joe.

Arlen Wesley visited friends in Lubbock Sunday.

Mrs. H. H. Shipman entertained the Home Demonstration Club Friday afternoon with nine members and two visitors present. Refreshments of fruit punch and cookies were served by her daughter, Nan Earley.

Mrs. J. W. Wesley visited Thursday afternoon with her mother, Mrs. M. F. Evans.

Mr. and Mrs. E. M. Wilson and Darrell visited Sunday with Mr. and Mrs. Ervin Wilson at Muleshoe.

Mr. and Mrs. J. D. Prossor and sons, John, David, and Ronnie, visited Saturday with her father in Plainview. The Prossors visited Friday night with the G. E. Wesleys; Saturday night and Sunday with Mrs. Prossor's grandmother, Mrs. M. F. Evans.

Mrs. J. B. Knowles visited a while Wednesday with Mrs. M. F. Evans.

Mr. and Mrs. Frank Rogers visited Sunday in the H. W. Wesley home.

Mr. and Mrs. John Patterson and family are to attend the wedding of one of her nieces at Sunray Thursday.

Don't forget — Sunday is worker's conference at Fairview. Come and bring someone with you.

Mrs. Max Barnard went to Laramie, Wyoming, for the graduation of her niece, Wynona Poston.

Mrs. Ella Hext visited a short time Monday afternoon in the J. W. Wesley home.

Mr. and Mrs. Ross Duff were in Amarillo Thursday caring for Ross's mother.

Mr. and Mrs. Chandler of Abernathy visited Sunday afternoon in the G. E. Wesley home.

WESTSIDE STUDIES PARKS Mrs. B. A. Burrus was hostess to Westside Home Demonstration Club on Wednesday, June 1.

Mrs. E. W. Bourn presided for the meeting. "Song of Peace" was sung by the group and the club prayer was read. A short business meeting was held after which a program on "State Parks" was developed.

Refreshments of pimento sandwiches, potato chips, cookies and punch were served to six members and four special guests by the hostess.

Mrs. Ray Metcalf will be hostess to the club on June 15.

IF THE SHOE FITS Teacher—Yes, Johnny, what is it?

Johnny—I don't want to scare you, but Papa said if I didn't bring home better grades some one is due for a licking.

Rest Pastures Following Rain

COLLEGE STATION: Rest after a rain is the best prescription for droughty, overgrazed pastures.

Since many ranches are carrying reduced numbers of livestock, producers should be able to defer one-fourth of their grazing lands without damaging the remainder. A. H. Walker, extension range specialist, says. This way many pastures can gain full advantage of recent soaking rains.

Pastures with most native grasses and vegetative cover will make the most recovery in a shorter period of time and should be deferred first, says Walker. Poorer pastures can be rested later since they may require several years to recover.

It's better to remove all livestock from a pasture than to leave it lightly stocked, he adds.

Defer for three to six months, or until frost. But if the grazing is needed sooner, wait at least until the growing grasses mature and drop a seed crop. Deferring promotes seed and plant reproduction in addition to increasing the vigor of existing plants.

The specialist recommends moderately grazing the pasture during the winter. This method provides some forage for livestock and helps distribute plant seed.

Many ranchmen looking over their bare ranges are considering reseeding. In some instances reseeding may be warranted but deferment more often does the job cheaper. If as much as 15 per cent of the "key" grasses are left, rest rather than reseed, the specialist suggests.

Enjoy resort weather in your own home, by installing a Clear-Vue Air Conditioner. Western Auto. 911

Mrs. Jack Jouette and children of McKinney are spending two weeks with her mother, Mrs. Grace McDougal.

Guests in the home of Mr. and Mrs. G. B. Combs for the week-end were Mr. and Mrs. C. V. Lowe of Gruver.

GOOD GIRL Mother: "Maud, were you a good girl at church today?"

Maud: "Yes, mother. A man offered me a big plate of money and I said 'No, thank you!'"

Turkey extends her modern high-way system.

JIM HILL COFFEE SHOP

"Where Hereford Dines"—Serving the Finest Steaks, Chops, Chicken and Sea Foods—Home Baked Pastries We Cater To Parties and Banquets Located at 141 East 3rd., Hereford, Texas Phone 1122

The Jim Hill Coffee Shop is the place where you can get the finest quality of tasty, well cooked food at the most moderate prices. In every city or town, there is always one eating place whose quality of food, expertness in cooking and prompt service makes it stand out above its competitors. Such a place is the Jim Hill Coffee Shop in Hereford. The manager firmly believes that "Quality has no Substitute," and purchases the finest of tender, juicy steaks and chicken, the best vegetables that money can buy. These commodities are tastefully prepared in a spotless kitchen by expert cooks whose first thought is that the customer must be pleased. They have many tasty and delicious table d'hote meals as well as the finest assortment of A-la carte items. Afternoon and evening parties by people of this section, in town on business or pleasure, will find this a pleasing place to complete the pleasure of the day. We could write many columns about this well conducted eating establishment, but suffice to say that the manager of this popular institution has been able to render a service to the people in this line that is distinctly satisfactory. Real value at the most reasonable price possible has been the guiding influence of their policies, and it has brought them trade from all the surrounding territory.

B & B OLIVER COMPANY

OLIVER FARM MACHINERY—PARTS AND SERVICE Diesel—L. P. Gas in All Model Tractors and Oliver Crawler Designed Right—Built Right—Priced Right Located at 1101 East 1st, Hwy 60, Hereford, Texas Phone 195

B and B Oliver Company invites you to come in and inspect their new Oliver Farm Machinery and other features, which are the Oliver Tractor and Oliver Crawler. Out of the famous inventions has grown the Oliver organization which has developed new machines for the future betterment of farming and agriculture.

Their machinery of today is built for dependability and economical service that is excellent and have helped to save many a farmer from the old time drudgery in raising a good crop.

The B and B Oliver Company is proud of its close affiliation with the large Oliver Corporation, and it is their aim to stock, sell and service the modern and up-to-date equipment put out by them.

They have gone a long way to furnish the farmers of this section with the most improved farm machinery that Oliver Corporation puts out each year, and will do anything possible to secure any of their machinery that they do not already have in stock. In making this business review, we are more than glad to compliment the management upon the great service they are rendering the people of this part of the state.

Twentieth Century Beauty Salon

Complete Beauty Service — Specializing in Hair Styling, Hair Shaping, Permanents That Last Located at 116 West 2nd Street, Hereford, Texas Phone 107 — Deanne Brown, Owner

Twentieth Century Beauty Salon is a worthy contribution to the art of vanity as they combine modern science with all the secrets handed down through the ages that have contributed to the beauty of lovely women. It is one of the modernly equipped establishments in Hereford. They have all the latest improved electrical appliances to take care of all phases of beauty culture. This is all fine equipment and is of the very latest pattern. Complete satisfaction in all its various phases has been provided for. Their interior appearance is immaculately clean, and they use the greatest care at all times. They will put in natural-looking waves which will last and the work is done by artists who are careful that each hair is in place, but not so slow as to make the process of getting a permanent wave tedious and tiresome.

They can give a beautiful wave in a very short time. The Twentieth Century Salon has acquired a large and deserving popularity with residents throughout this entire section of the country. Women who pride themselves on their appearance are discovering that this is a careful and reliable beauty parlor, and in gatherings of fashionable women the name of Twentieth Century Beauty Salon is often heard.

HEREFORD LOCKER

COLD STORAGE LOCKERS—Custom Slaughtering Complete Food Processing For Your Home Freezers or Lockers—Wholesale Meats and Poultry Located at 130 N. Main—Hereford, Texas Phone 64

The Hereford Locker is one that holds the interest of the people all the year around. Frozen food locker plants were designed to aid in properly handling food supplies, but especially they were designed to give the farmers a ready market and to provide farm families with things they produce the year around in sanitary, economical and better living standard. The people from all over the surrounding territory drive here to secure the very finest of meats and fruits processing.

They have made an extensive study of the modern conditions in the provision trade and keep right abreast of the times. The people of this part of the state are indeed fortunate in having a firm of such ability to serve them. Their lockers are attractive and the customers are given the opportunity to make their own selection if they desire.

The Hereford Locker is a friendly market where quality is the best, prices are reasonable and the service supreme. It is a pleasure in this business review to recommend this well known firm to all our readers and compliment the management upon the conduct of an institution that is most modern and aids in the ease of housekeeping as well as lowering the high cost of living for the people.

Your Friendly Super Market

Around the Town...

(By Mrs. Clyde W. Warwick)

"In June's torrid heat
Is the time we remember:
"What is so rare as
A day in September?" —Helen
Gorn Sutin.

Mrs. C. L. Neelley who lives at 205 10th Street, and her daughter, Miss Claudia Neelley, have a Fay's Phoebe which built its nest on one of the pillars of their porch last year and came back this year and built its nest again in the same place. Last year either the cold or lightning kept the Phoebe's five eggs from hatching. She moped around a few days and then flew off, but in about a week she came back; built a floor over the old nest and laid five more eggs. These hatched and when she had raised her family she left. This year she had bad luck again. Just after she had laid her five eggs and started setting a Blue Jay came and ate all of her eggs. Again she built a nest on top of the old nest, laid five more eggs and is now setting on them. Mrs. Neelley and Claudia get much pleasure and entertainment watching the bird. And they both admire her courage. Miss Neelley said she had seen these birds in the canyon, but was surprised to find one nesting in town.

Miss Neelley is the art teacher at the Canyon High School and Junior High School. The Neelley's moved to Canyon from Sweetwater when Miss Claudia was ready for college. She attended WTSC, and after receiving her M.A. degree she went to Lubbock where she taught in the public schools for 11 years. The last several years she was head of the art department in the Lubbock High School.

Mr. Neelley died suddenly and Claudia, in order to be with her mother, resigned her work in Lubbock and accepted the art work in the Canyon Public Schools.

The Neelley's moved to Canyon from a farm near Sweetwater in 1936 and bought a home by the Canyon Public Schools. They liked the Palo Duro Park so well that they built a cottage in the canyons at the Methodist encampment and every spring as soon as school was out they went to the canyons and spent the summer there. Later they sold their home in Canyon and bought the Baptist Club Grounds, naming it Ceta Glen Camp Grounds.

The Neelley's chose the name Ceta Glen because the name Ceta is Spanish meaning a gathering place and this had been a gathering place first for the wild animals, then the wild men or Indians and then civilized man found its beauty restful and relaxing and now uses it for a gathering place. The word Glen means a low place between two hills, and so they decided on the name Ceta Glen. Mrs. Neelley says she explored every inch of Ceta Glen, that she set her foot on every spot in that part of the canyon, going places no woman had ever gone before, unless it was a squaw.

They ran these camp grounds for 11 years, entertaining all church denominations, the Boy Scouts, the Girl Scouts, 4-H Clubs, women's organizations and private groups until their health made it necessary to stop such strenuous work. They then moved back to Canyon and bought the home where they live now. Mrs. Neelley says the years they spent at Ceta Glen were such happy years. They enjoyed every minute of them and she loves today to think of those days.

Miss Neelley has painted a beautiful scene from the Ceta Glen which hangs over their fireplace. After the Neelley's left the Ceta Glen Camp and moved to Canyon Mrs. Neelley, in order to forget her loneliness and homesickness for the canyons started to make a braided rug. This rug lies in their living room in front of the fireplace. It is a little larger than 8x9 and is made from all wool strips. Mrs. Neelley cut the strips in thicknesses so all the braids would be the same size, then turned all the raw edges in and sewed them with a running stitch and this took 21 spools of thread. She then arranged the colors so they would harmonize and made the rug reversible, both sides being beautiful. The rug has been in use for years and shows no sign of wear. It is a beautiful rug.

"On Father's Day we honor Dad
To give his heart a life
'Tis just like Mother's Day,
except
He gets a cheaper gift!" —
Stephen Schlitzer

There are so many beautiful roses in bloom around Canyon now I am wondering if we couldn't be known as the Rose City. Mr. and Mrs. Tom Black have some lovely red and white roses on their fence. Mr. and Mrs. O. A. May and Mr. and Mrs. J. Alvin McDonald have beautiful ones as do Mr. and Mrs. Carl Eugene Hair.

It seems I am not the only one who feels the battle with garden pests is never won. Betty Isler puts it this way:
"The aphid, mealy bug and thrip
Abound in legion in our plot,

Exposing Nature as a gyp.
For they are multiple—I'm not.
A trillion eggs, plus those who
lay 'em.
Yet only one of me to spray
'em."

Mr. and Mrs. Rhone Mobley had as their guests the past week, Mr. Mobley's brother and family, Mr. and Mrs. W. W. Mobley and family of Battle Ground, Washington.

Mrs. George Clark, who moved from here to Menlo Park, Calif., stopped in Canyon on her way to North Carolina and visited in the library leaving the order for the book "A Gift From the Sea" by Anne Lindburg honoring the memory of the late Mrs. S. L. Ingham. Mrs. Clark was a member of the library board while living in Canyon and has been interested in the recent drive for the library.

Wes Izzard had the following article in his column Tuesday morning and it impressed me so I will repeat it for fear some missed it. "A WARNING TO KEEP OUR POWDER DRY." We are as hopeful as anyone that at least some of the sweet reasonableness being displayed by our Communist friends is genuine. On John Cameron Swayze's TV newscast last night we saw the movies of the Russian with Tito in Belgrade, and they looked very much like reasonable human beings.

"BUT W. T. SMITH, at Dial, Texas, has sent a clipping that brings us up short. It's an excerpt from a speech made 24 years ago to the students of the Lenin School of Political Warfare in Moscow by Dimitri Manuisky. Here it is:

"War to the hilt between Communism and Capitalism is inevitable. Today, of course, we are not strong enough to attack. Our time will come in 20 or 30 years.

"To win, we shall need the element of surprise. The bourgeoisie will have to be put to sleep. So we shall begin by launching the most spectacular peace movement on record.

"There will be electrifying overtures and unheard-of concessions. The Capitalist countries stupid and decadent will rejoice to cooperate in their own destruction. They will leap at another chance to be friends.

"As soon as their guard is down we shall smash them with our clenched fist."

"Pretty grim, isn't it? But not necessarily true. It is a warning that our diplomats should carry with them to the conference table; but it should not be allowed to obscure the fact that people, and nations, do change."

Certainly it is a warning to us to be on our guard.

Carol Ann Cummings of Amarillo visited with her cousin, Mary Patricia Haley, the past week.

Mrs. L. M. Cousins left Friday to visit her daughter and family, Mr. and Mrs. Philip L. Patterson in Cedar Grove, New Jersey.

The Canyon Garden Club will hold its regular meeting June 9 with Mr. and Mrs. Clyde Warwick at 1110 6th Ave. The subject for discussion will be ROSES. The best type for this climate, their culture and the best method of feeding. All interested are cordially invited to attend. The meeting will be held at 7:30.

"Tired mothers were in clover last autumn when they gave their impish youngsters over to teachers stern and grave; But now their facial features are rather solemn, for the time has come for teachers to even up the score!" — Richard Wheeler.

Mr. and Mrs. Bob Wear and their son, John, who is 12 years old, have moved to Canyon from Hereford. Mr. Wear is the new minister of the Church of Christ

and they are living in the Church of Christ parsonage at 2510 East 8th Ave. Mrs. Wear says they are moved but not settled yet as there has been so many activities in Canyon and Hereford which they have attended.

In addition to his church activities Bob Wear writes a column called "The Abundant Life," of most interest in the Amarillo Daily News and it is nice to see it signed "Bob Wear, Canyon."

Mrs. Al Williams and her two children, Bobby and Susan, have joined Mr. Williams in Lubbock. Mrs. Williams has been ill for the past four years and because of her ill health has lived with her mother, Mrs. R. P. Jarrett, Sr. Mr. Williams has been spending the week-ends with his family in Canyon. Her many friends are happy that she has recovered her health and the family can be together again. They have purchased a new home in Lubbock and moved into it last week.

"Judge not, that ye be not judged. For with what judgment ye judge, ye shall be judged: and with what measure ye mete, it shall be measured to you again. And why beholdest thou the mote that is in thy brother's eye, but considerest not the beam that is in thine own eye?" St. Matthew 7:1-3.

EVERYBODY'S RICH

Mineral Hills, Mich. — Anyone who lives in the community of Mineral Hills, population 333, and isn't worth \$34,938, hasn't received his share. Mineral Hills is one of the wealthiest communities in the mid-West because of its iron ore mines and mineral reserves. Its property valuation is \$11,645,000.

Mr. and Mrs. L. H. Brackenridge and sons of Duncanville, Texas, and Mr. and Mrs. S. H. Pitts and family of Borger were visitors in the home of Mr. and Mrs. D. V. Shelnutt this week. Mesdames Brackenridge and Pitts are daughters of Mr. and Mrs. Shelnutt.

Buy, Build, Live in Canyon!

I GIVE YOU TEXAS

By BOYCE HOUSE

Texas! How can one describe the infinite variety? Where begin?

The grandeur of El Capitan peak, wrapped in a faint blue veil, the lord of a lonely landscape;

The tall pines, the dogwood blooms and the unbelievably red soil of East Texas;

A cascade of green and blue (vines in blossom) almost hiding farm-houses near Lufkin;

In mid-afternoon, shadows deep as twilight on the tree-clad campus of the college in old Nacogdoches; The dazzling sunshine of Eagle Pass;

The tiny, swinging bridge at Lovers' Retreat near Mineral Wells and the tremendous span at Port Arthur, seemingly insurmountable in its steepness when seen from a distance;

San Antonio's winding river with its many bridges, the rose window of San Jose, the Alamo;

The dome of the Capitol at night;

Old Jefferson, which once knew steamboats and long lines of wagons bringing cotton from East Texas, Arkansas and Louisiana, where now the spirit of history broods over the fallen columns of perished glory;

The wide main street of quaint Fredericksburg, with its old stone buildings the lidded schooners of golden brew and the porcelain pipes with long curving stems to fit around the bulging stomachs of placid burghers;

Galveston with its oleanders and its boulevard with bronze statues and granite shafts, and memories of Civil War battles and of the titanic flood;

The long highway lined with palm trees and citrus groves and towns in the Rio Grande Valley; Crowds—at football games, on first Mondays, on opening day of

court, at political speakings and at parades;

The King Ranch of a million acres; fox hunts in East Texas; and wolf hunts in West Texas; boots and big hats and son-of-a-gun stew; sheets of pink and gold wild flowers; acres of bluebonnets; the gushing hillside which is Seven Hundred Springs; and memories of Fort McKavett;

Old book stores, and forests of derricks, and rippling fields of wheat, and the smoke and glare of carbon black plants passed at night on the train;

Flood, and drouth, and the wind Texas!

News In Canyon 25 Years Ago

(Taken from the files of The Canyon News of May 29, 1930)

Douglas A. Shirley was elected president of the Canyon Rotary Club for the coming year.

Mrs. Mary Elizabeth Lester died at the age of 92 years, 9 months. She is the mother of L. T. Lester.

The magnetic nail picker picked up 1550 pounds of nail in one day's work between Canyon and Amarillo.

Randall county set a new high record of registration of automobiles when 1900 was reached.

K. E. Frieze of Canyon and Miss Evelyn Tanner were married at Terrell.

Lee Satterwhite of Austin was named manager of the Clint C. Small Campaign for Governor.

(June 5, 1930)
The Palo Duro Park possibilities were discussed by the Chamber of Commerce.

L. F. Sheffy started the summer's campaign of increasing the \$16,000 subscription of the museum to \$50,000.

J. Edward Gerald and Miss Opal Dutton of Panhandle were married.

K. L. POND

Don't argue with this baby!

All Chevrolet's competitors and most of the high-priced cars tried it recently in official NASCAR* trials—and took a licking!

Meet the champ! The new Chevrolet "Turbo-Fire V8"—the most modern V8 on the road today. Here's what happened—

Daytona Beach, NASCAR Acceleration Tests Over Measured Mile From Standing Start. Chevrolet captured the 4 top positions in its class! 8 of the first 11! And on a time basis Chevrolet beat every high-priced car, too—but one! But wait!—this is just the beginning!

Daytona Beach, NASCAR Straightaway Running. Open to cars delivered in Florida for \$2,500 or less. Chevrolet captured the first two places, 7 out of the first 11 places!

Daytona Beach, NASCAR 2-Way Straightaway Running Over Measured Mile. Open to cars from 250 to 299 cu. in. displacement. Chevrolet captured 3 of the first 5 places!

Columbia, S. C. NASCAR 100-Mile Race on half-mile track. Very tight turns. Chevrolet finished first!

Fayetteville, N. C. NASCAR Late Model Event. Chevrolet again finished first. Because of even tighter turns the driver chose to run the entire 150 laps in second gear! Yet no overheating or pit stops!

These facts you can't laugh off. Sales leader. Road leader. A crowning achievement of Chevrolet and General Motors. Try a Chevrolet... and live in a land of going-away where you win all the arguments! Soon, maybe?

WARREN'S

Just Between You, Me and the Gatepost

By Lawrence Hummcutt

Remember the old saying about absence making the heart grow fonder? It was proven to a certain degree last week when Dennis and LaNell Ford returned to Canyon from Austin. Both agreed that Canyon is, without a doubt, the best place in the world to live. They have been living in Austin where Dennis has been attending the University of Texas working on his Doctorate. They returned here for the summer. During this time Dennis will teach at West Texas State College and then return to Austin to complete work on his doctorate next fall. The warm and friendly welcome the family received at returning to Canyon gave them an even greater appreciation of the town. Their two daughters, Kathy and Linda, were also happy to return to their friends in Canyon.

Dudley Bayne has been a little busier than usual lately getting things prepared for the City Park completion and dedication. This is one of the most important events for the town and is being very well handled. As most of you probably know there has been a contest going to name the park. Although the contest is closed, the name of the winner will not be announced until the park is dedicated. All entries in the contest are in the hands of the judges but as we understand it they will make their selection of the winner only a few days before the park is dedicated. This event may be sometime this month. We sure hope so.

Speaking of the park to be dedicated also brings up the World War II dead from Randall County Memorial that will be placed in the park. The dedication of this Memorial is supposed to take place at the same time the park is dedicated. The presentation of the award, giving the park name and dedicating it and the WW-II Memorial should make this one of the really great days in the history of Canyon.

Everyone who doesn't know how to work a slide rule should get busy and learn to do so. We got one from Johnnie McBroom the other day to use for gasoline consumption in the family car. This is something different although it shouldn't have been unexpected. The slide rule is a very versatile piece of equipment that has been used in movies and stories for everything from courtship to football coaching. If they ever make an electric slide rule it will probably replace the clock.

Roland Black, manager of the local Chamber of Commerce, left for El Paso Saturday morning at 8 o'clock to attend a Chamber of Commerce school. It's a four day management course that should be excellent for the exchange of ideas about Chamber of Commerce management across the country. It's always nice to know what other towns are doing and one of the best ways to learn this is to attend the various schools of this type that are held from time to time about the country.

Now that we have completed a week in June, the month of weddings, it's probably time for some of the facetious remarks that go along with that subject. One of these stories concerns two fellows who were talking about the recent marriage of a friend. One of them said, "Well, I see Bill finally got married, wonder what got into him?" And the other answered, "I don't know but I think it was buckshot."

Of course there's always a husband and wife joke about a time like this. It concerns a wife who said, "In my day I was a bird of a stenographer." To which the husband replied, "Yep, a one fingered one, sort of an underwood pecker."

Wayside News

Rev. Lee of Amarillo Assembly of God Church filled the fifth Sunday pulpit Sunday morning. His wife and daughter accompanied him.

Mr. and Mrs. William Payne of Clarendon and his sister, Mrs. Ruby O'Neal of Tulsa were dinner guests Sunday in the W. R. Franklin home. Mr. and Mrs. Payne remained over for Memorial Day services.

Roy Franklin and son, Roy, Jr., of Canyon spent Monday night in the W. R. Franklin home. Roy, Jr., spent the week with his grandparents.

Mrs. George Hancock and Judy of Pampa were visitors with Mrs. Bessie Lane and attended Memorial Day services.

Last week we failed to get all of the winners of the pigs on their essays. Guy Watson and Jimmie Schrib were also winners.

Mrs. Raymond Strohmeier, Karen Sue, Kathy, Kenny, and Carline spent part of last week with her mother, Mrs. Williams, of Pilot Point.

Mrs. Nannie Moore attended a family reunion of her people last week at Stratford.

Joe Lange was buried in the Wayside Cemetery by the side of his wife, the former Lola Belle Wesley, who died in 1948.

Mr. and Mrs. Charles Kennedy, Robert and Richard were Amarillo shoppers last Wednesday.

Patsy Schrib and Elvin Scroggins attended District 4-H Club Camp at Camp Don Herrington. Mrs. Melton McGehee and Mrs. Bill Heisler attended their program Friday night.

Mr. and Mrs. Tom Rankin of Florence, Ariz., were visitors in the Melton McGehee home last Friday. Mrs. Rankin and Mrs. McGehee are cousins.

Mr. and Mrs. Gorby Martin, Ray, Stevie and Allen of Shawnee, Kansas, visited with Mrs. Amanda Adams and Miss Charlotte Adams and also visited in the Floyd Adams home. Mrs. Martin is a basketball coach and a relative of the Adams.

Mr. and Mrs. M. E. Counterman of Happy were callers in the W. R. Franklin home Sunday night.

Mr. and Mrs. A. J. Newsom announce the arrival of a girl born June 2 in the Osteopathic Hospital in Amarillo. She weighed 8 lbs. 4 oz.

George E. Williams of Pilot Point is visiting his uncle, aunt, and cousins, the Raymond Strohmeier's.

Miss Minnie Lou Riley of Canyon spent part of the week in the Raymond Strohmeier home.

Charles E. Wilson, Secretary of Defense: "We have two jobs, apparently, in the Pentagon. One is to work hard at the job and to get the right things done, and the other is to put out the fires caused by the headlines."

Captain Frank L. Swaim judges automobile gasoline the way he judges aviation gas . . .

IT'S PERFORMANCE THAT COUNTS!

"My regular job is piloting a United Air Lines DC-7. On most of my flights we use Phillips 66 Aviation Gasoline. It's high-performance stuff, and one reason it's so good is Di-isopropyl. Phillips has started putting Di-isopropyl in automobile gasoline, too. They call it 'FLITE-FUEL' . . . and I use it regularly in my car. It gives wonderful performance."

Frank L. Swaim
Captain Frank L. Swaim, United Air Lines

Flite-Fuel puts the Accent on Performance!

If it's top performance you want, fill up with powerful new FLITE-FUEL. Both new FLITE-FUEL and new Phillips 66 Gasoline have been fortified for increased power, higher octane, longer mileage. Remember, the one real test of motor fuel is: how it performs in your car. Try a tankful at your Phillips 66 Dealer's.

Worthy Advisor Is Installed

VIRGINIA LEAKE

Virginia Leake, daughter of Mr. and Mrs. Iverson Leake, was installed as Worthy Advisor of the Canyon Assembly No. 214, Order of the Rainbow for Girls in an

open installation ceremony held Monday, May 30, in Masonic Hall. Installing officers were: Sarah Jane Colwell, installing officer; Nancy Adcock, installing chaplain; Martha Quillen, installing marshal; June Davis, installing recorder; and La Nelle Gum, installing musician.

Officers for the ensuing term are: Worthy Advisor, Virginia Leake; worthy associate advisor, Ann Moore; charity, Nancy Kay Tomlinson; hope, Diane Prichard; faith, Wanda Rogers; chaplain, Margaret Johnson.

Love, Linton Coleman; religion, Nedra Fanning; nature, Barbara Myers; immortality, Carol Ann Holman; fidelity, Cathryn Morris; patriotism, Mary Sue Bolton; outer observer, Glenna Faye Stroup; musician, Barbara Brown; and choir director, Margaret Juniper.

Mrs. Ildagerte Wirt as mother advisor and members of the advisory board, Mesdames Otto Samuelson (chairman), Johnny Gum (secretary), Iverson Leake, Clarence Adcock, T. E. Beard, and Messrs. Clarence Adcock and Johnny Gum were introduced.

Following the installation ceremony Virginia introduced her parents, Mr. and Mrs. Iverson Leake,

and presented them with a gift. Nelda Coffee and Debra McDonald, accompanied by Mary Sue Bolton, sang "My God and I." Nancy Adcock, the outgoing worthy advisor, was conducted through "Isle of Love" and presented her past worthy advisor's pin by Virginia. Virginia was then honored with a short program by her close friends who presented her with flowers the color of the rainbow.

The new worthy advisor announced her colors, "blue and white," and her theme, "Faith." Following the benediction, "The Lord's Prayer," the meeting was closed with a drill and the singing of "My Rainbow."

Refreshments were served by the outgoing worthy advisor and her mother to the assembly and guests.

Couple Weds in Ceremony Thurs.

In a candlelight ceremony performed Thursday evening, May 26, Miss Joann Dodson, daughter of Sam Dodson, became the bride of Arthur Seitz, son of Mr. and Mrs. C. L. Seitz of Mobeetie.

The double ring ceremony was read by the Rev. Vernon C. Willard, Sr., in the country home of Mr. and Mrs. Vernon C. Willard, Jr., near Farwell. Witnessing the exchange of vows were Mr. and Mrs. Willard, Jr., and Mrs. Willard, Sr. Roses and honeysuckle decorated the home. A reception followed the wedding.

For her wedding the bride chose a dress of aqua with white accessories. Her corsage was of white carnations.

Mrs. Seitz is a graduate of Canyon High School and was the recipient of a scholarship during her first year in college. Mr. Seitz is a graduate of Mobeetie High School and attended Amarillo College. He spent three years in the Armed Forces. Both have completed three years of work as mathematics majors at West Texas State College.

Mr. and Mrs. Seitz are making their home in Lefors this summer where he is employed as a chemist in the laboratory of one of the carbon black plants. In September they will return to Canyon and enroll in WTSC for their senior year.

TOWN AND COUNTRY CLUB MEETS WITH MRS. REYNOLDS

Mr. and Mrs. Ed Reynolds were hosts to members of the Town and Country Club on Saturday evening to a series of games of "88."

Refreshments were served by the hosts to Messrs. and Mesdames Albert Byars, L. T. Campbell and Carolyn, Jack Foster, Arthur Olson and a visitor, Rose Reynolds.

Next meeting will be with Mr. and Mrs. Harley Burrus.

Sanitation Code Adopted Wheat

COLLEGE STATION: Farmers who put wheat under the 1955 price support program must be prepared to meet more specific standards of grain sanitation.

Under the revised program of the Food and Drug administration, wheat does not meet the minimum requirements for food if it contains more than two rodent pellets per pint, or comparable amounts of contamination, or contains two percent or more, by weight, of kernels visibly damaged by insects. Wheat not meeting these standards must be disposed of for non-food uses.

The same program based on minimum sanitation standards was in effect several years ago.

Most of the wheat that leaves Texas farms is clean grain — well above these standards. W. S. Allen, extension agricultural engineer, points out. The trouble lies with a relatively few exceptions, resulting from careless handling and storage.

Farm stored wheat offered as security for price-support loans will be sample-tested at regular intervals and at time of delivery to the CCC. Except for the question of resale eligibility, the new requirements do not apply to 1954 loan or purchase wheat. If last year's wheat does not make the standards, it is not eligible for resale but can be delivered to CCC under provisions of the 1954 loan and purchase-agreement program.

Complete information on the revised sanitation program may be obtained from county ASC offices or from the county agricultural agent, Allen adds.

Land Owners and Gamemen to Meet

There will be a meeting of land owners in Randall county Friday night of this week in the court house for the purpose of better acquainting them with regulations of the State Game Laws.

Deputy Game Warden Woody Pond states that the Game Warden from Canadian will be here to talk at the meeting.

There will be an abundance of game in the Panhandle this year judging from present conditions, stated Mr. Pond Monday. The drouth has not cut the number of quail that will be hatched and the presence of vegetation always prevails when there has been an abundance of rain, such as has fallen this year in the Panhandle.

Recent tornado scares remind us that, despite advancements in science, no one can accurately predict the weather. Furthermore, when Nature makes up her mind to tear things up, we've lost the ball game no matter what.

Makes us wonder if there was a grain of truth in that old saying that what you don't know won't hurt you. We're thinking of the people who don't have their radios on during weather alerts and so don't know to be afraid. Of those who are fully warned, but don't get in the path of a twister, and so their fear is in vain. And of others who are caught so swiftly they don't have a chance.

With funnels hovering overhead almost daily, most of us have done some speculating on "what we'd do" if a tornado should strike.

Open all the windows on the sides away from the storm, say

some; then get against an inside wall and hope.

Get under a table.

Put a mattress on your head to protect yourself from flying debris. Get in a car and outrun the storm — if you can guess which way to run. Drive at right angles to it.

Most of us wouldn't go to a storm cellar, because we don't have one. Besides, the storm cellars we knew as children were about as scary as the wind. Spiders, centipedes, mice and bats were never our favorites in Nature. Neither was a dark hole under the earth.

Just what we would do, we aren't quite sure. But even if we weren't absolutely paralyzed with fear, we think we'd simply stay in the house and take the thousand-to-one chance on its not being hit. Fantastic? Maybe. But who can make a better guess?

Mrs. Eleanor Roosevelt, wife of late President: "It is slow work, bringing peace to any area of the world, but it is not a hopeless cause."

Marshal Tito, Premier of Yugoslavia: "No one can convince me that there is not, in the world today, another way than that of war."

Drouth Cuts Cattle Number

A 50 percent reduction in livestock numbers has been noted in the Edwards Plateau and Trans-Pecos areas of Texas since drouth began in 1943. Many ranchmen who prior to 1950 did little supplemental feeding were averaging \$25 annually for feed expenditures for each animal unit at the end of 1953.

These findings have grown out of a study by two agricultural economists at Texas A. & M. College on the economic effects of drouth on the resources of West Texas ranches. Most of the 162 ranch operations studied by C. A. Bonnen and J. M. Ward were within 100 miles of San Angelo, the area hardest hit by the drouth. At San Angelo, a 60-inch rainfall deficiency accumulated in the 11-year period, 1943-53.

Grass clipping studies at the Sonora Ranch Experiment Station yielded only 20 pounds an acre of air-dry forage in 1951 and none in '52 and '53.

Between 1950 and 1953 the econ-

omists found a 37.5 percent decline in net worth among one group of 45 ranches. At the end of this period, short-term debts of the same ranches amounted to 103 percent of the value of their livestock. They had reduced their livestock numbers 20 percent, cash 50 percent, and total assets were down 20 percent, while liabilities, including a 10 percent rise in land mortgages, were up 38 percent and life insurance, 42 percent.

Another group of 92 ranches which received special livestock loans from the Farmers Home Administration owed in short-term debts 206 percent of the value of their livestock. This group represented the more extreme financial conditions among ranchmen.

Sharp changes in prices of livestock during the period complicated the drouth problems for both ranchmen and credit agencies. Bonnen and Ward reported. As prices rose, ranchmen were reluctant to reduce stocking rates, probably speculating on a break in the drouth. This led to heavy use of high-priced feed in expectation of continued high prices, and expanded borrowing when the expected prices did not come about.

"High Dam" is the key to water, and power in Egypt.

NEWS LETTER

FROM CONGRESSMAN WALTER ROGERS
OF THE 18TH CONGRESSIONAL DISTRICT

Small Projects

On yesterday, the House passed a bill known as the Small Projects Bill. This bill is designed to provide a means by which small communities can, through proper organizations, finance water projects costing not more than 10 million dollars, by one of three methods:

1. Borrow up to 5 million dollars from the Federal Government.
2. If the project costs more than 5 million dollars, the community can borrow up to 5 million dollars from the government if they can finance the difference between the 5 million dollars and the cost of the project up to 10 million dollars by private financing.
3. The projects can be privately financed. In that event, the community organization would be entitled to a grant from the federal government of the same amount that they would get for flood con-

trol, fish and wildlife and recreation, if the project were completely federally financed.

The third method of financing is the one that was proposed by me in an amendment that we adopted in committee. It provides the method of participation by a local community on a free enterprise basis that has been lacking in the past.

The bill is similar to the one that passed the House last year and died in the Senate. The former bill applied only to the 17 western reclamation states which are included under the jurisdiction of general reclamation laws.

The present bill included all 48 states, plus Alaska and Hawaii. The program was to be administered by the Secretary of Interior, who has all of the tools to administer such a program most efficiently and with the least possible

cost. However, some of the eastern states did not want to be under the Department of Interior and pushed through an amendment placing them under the Secretary of Agriculture. This amendment included Texas under the Department of Agriculture.

I voted against this amendment because, from all accounts, Texas has had very little success in obtaining much consideration from the Secretary of Agriculture. In my opinion, the entire water program should be under one department. Which one that does not make a great deal of difference, but I do not think that one program should be administered by two separate and distinct departments.

The bill is on its way to the Senate, and I hope will be speedily acted on there. It fills a much needed gap in the water projects legislation of this country.

Salk Vaccine

The Salk vaccine hearings before the House Interstate and Foreign Commerce Committee, of which I am a member, will probably be concluded within about ten days. The pressure is beginning to build up for and against the government having anything to do with the distribution or control of the vaccine. Some want the Federal Government to see that every child gets proper inoculation. Some take the position that it is none of the Government's business and that government regulation is socialistic. Some say that this is definitely a government responsibility and that the vaccine should be furnished by the Government, distributed by the government, and that every person should be required to be inoculated.

It presently appears that the general program will be a mixture of many suggestions. Legislation will provide government control, distribution will probably be through state health authorities, money will be appropriated to make the vaccine available to all, and no one will be compelled to be inoculated.

During the hearings one of the witnesses from the Department of Health, Education and Welfare testified that there would be no danger in the second and third shots to those children who have had the first shot. He also testified that there is no reaction from polio vaccination. Had I known this two weeks ago, it would really have alarmed me.

Our Mary Catherine came down with a fever five days after received her first shot. We consoled ourselves on the ground that it was reaction to the shot. Fortunately, it was due to some other virus from which she quickly recovered. Since she has had her

Series E Savings Bond 14 Years Old

The popular Series E Savings Bond had a birthday in May—its 14th—and on hand to greet it were the wife of the Vice-President of the United States and two Washington school youngsters who were born in the same month as the first E bond, May 1941. Mrs. Richard Nixon is shown here on the Capitol lawn receiving a floral tribute from Marsha Baker and Thomas Bensinger, students of the Alice Deal Junior High School in Washington, D. C. Mrs. Nixon, as honorary Vice-chairman of the National Women's Advisory Committee for Savings Bonds, received the offering in behalf of the thousands of women volunteers across the country, who have helped to sell 1.7 billion separate Series E Savings Bonds since 1941. The two youngsters were chosen for the honor not only because they are the same age as the E bond, but because they are regular purchasers of Savings Bonds in their school program. The spectacular 4½-foot floral piece was made of red and white carnations and blue cornflowers, with the Minute Man symbol of the Savings Bond Program in gold. It was donated by the Allied Florist Association of Greater Washington, Inc.

first shot, she will complete the series.

Umbarger News

Mr. and Mrs. Sylvester Batenhorst and family, Mr. and Mrs. Carl Frische and Mr. and Mrs. Ben Koch and family were Sunday afternoon callers in the Raymond Batenhorst home.

Miss Elizabeth Ann Beckman has just recently graduated from St. Scholastica's Academy in Canon City, Colorado. Her parents, Mr. and Mrs. Clarence Beckman, and her sister and brother-in-law, Mr. and Mrs. Alvin Friemel and family, were present.

Mrs. Frank Grabber and girls

attended a miscellaneous shower in honor of Cecelia Detton at Pantex Hall, in St. Francis.

The Umbarger Blue Sox defeated the Nazareth baseball team, 10-9, at Nazareth. Next Sunday is open day for the Umbarger team.

Mr. and Mrs. Math Albracht and family visited relatives in Nazareth.

Mike Raef exchanged visits with Frankie Friemel.

Mary Buecker, Sylvia Raef spent the Sunday with Shirley Albracht.

Dr. Ima Barlow had as her guests her mother, Mrs. Ida Barlow, and her sister, Mrs. Wayne Somerville both from Wichita Falls. Mrs. Barlow will spend most of the summer here. Mrs. Somerville will spend about two weeks.

Vacation Hints Given Motorists

Vacation motor travel is big business in the United States. Each year more and more vacationers take to the road, with the majority in private cars and the average car is driven 1,200 miles during the vacation. As motor travel booms, traffic accidents, especially in rural areas, also boom.

The Texas Farm and Ranch Safety Committee offers a few suggestions which they feel, if followed, will take some of the boom out of accidents. Give the family car a thorough check-up before starting and watch for signs of trouble along the way. Don't block vision, say the experts, by improperly loading the car. Good vision is a must for safe driving.

Be prepared for emergencies. A first aid kit, maps, permits, identification, a flashlight and a tool kit and maybe a few spare parts should be carried along.

With the driver rests much of the responsibility for a safe trip. His efficiency is greatly affected by fatigue. Plan the trip, urges the committee, to allow rest stops during the day and a good night's sleep each night. And don't try to drive and see the sights at the same time.

Ignorance of the law is only an excuse. Most states use standard traffic sign shapes. They are a constant guide to safe driving; know and obey them.

Traffic will be a problem during the vacation season in all parts of the country. Just don't get in a hurry and don't drive faster than conditions justify, says the committee. Be adaptable and fit your driving to the peculiarities and conditions that exist in the areas through which you may travel.

Finally, says the committee, take safety with you. It will bring you home in good shape and you can look forward to next year's trip.

Santa Fe Railway's ultrasonic rail detector car, in operation past two months and believed to be the first of its kind on any American railroad, represents very latest technique in rail maintenance. Here detector car operators run local check with ultrasonic hand test machine at rail joint which has reflected faulty indication on car's chronograph recording tape. Pioneered by Santa Fe engineers and equipped for either rail or highway travel, new device picks up more than 95 per cent of all rail defects such as fissures, fractures, bolt hole breaks, separations and other imperfections. Rear picture window provides operators with clear view of tracks as car progresses.

The Santa Fe Railway has announced the successful operation of an ultrasonic rail detector car, believed to be the first of its kind on any American railroad.

The new device was pioneered by the Santa Fe's own engineering department and intensifies their present rail testing program to guard against development of defects and to insure greater over-the-road safety to passenger and freight trains.

The car was first placed in operation early in March this year between Topeka and Atchison, Kansas, and has been operating more recently between Topeka and Emporia, Kansas. Plans are to use it on all parts of the Santa Fe system.

Resembling a panel truck and equipped with both flange and rubber-tired wheels, enabling it to operate on either rail or highway, the new device picks up more than 95 per cent of all rail defects such as fissures, fractures, bolt hole breaks and separations.

Equipment built in the rear of the car utilizes a combination of sonic and ultrasonic frequencies applied to the rails which effect recordings on a chronograph tape. These recordings indicate normal and defective conditions in the rail. When defective rail is discovered, it is marked for immediate removal and replacement by section men. Two electronic technicians can operate the equipment.

The car is capable of perfect inspection at a stand-still position, or at speeds as high as 16 miles per hour. Its efficiency is enhanced by the flexibility and ease with which it can move from rail to highway, thus increasing the number of hours it can be used to test rail. A set of rubber-tired wheels can be raised or lowered manually to have the car leave the rails at highway crossings and swiftly clear the track for passing trains.

Santa Fe engineers state that operation of the ultrasonic rail detector car has proved efficient and economical, and it probably

ultimately will replace present rail detection devices. Rail detection was first introduced on the Santa Fe more than a quarter of a century ago, and over the years the engineering department has been improving detection techniques.

Corncocks Are Bringing in Year \$10,000,000

COLLEGE STATION: Farmers are exploring a new market for corncocks, once a waste product.

More than one million tons of corn were used last year in industrial products, returning some \$10,000,000 to farmers and rural cob grinders, the USDA estimates.

Owing largely to research by governmental agencies and private industry, use of corncocks increased 60 per cent in the past five years.

The USDA says that each year's corn crop produces about 15 million tons of cobs, largely in Iowa, Illinois, Nebraska, Indiana and Minnesota.

But regardless of the increasing absorption by industry the major portion of the cobs still are waste.

About half of the cobs collected and sold go into the production of the chemical furfural which is required in the manufacture of nylon, synthetic rubber, pharmaceuticals, and resins, and for petroleum refining and as an industrial solvent.

The remainder is used for incorporation into livestock feeds; in cleaners and polishes of metal, glass, plastic and molded rubber items; for air-blast cleaning of engine parts and large electric motors; as a carrier of insecticides; and as a constituent of plastics and tread stock for automobile tires.

On farms, thousands of tons go for poultry litter, livestock bedding, garden mulch, and for filling lowland areas and prevention of erosion.

Texas Viewpoint

In Washington

By PRICE DANIEL
U. S. Senator

Look for a great increase in highway construction during the next five years.

The Senate last week passed legislation to provide for the modernization and expansion of highways throughout the United States. The bill provides for a joint contribution for securing the necessary funds between the states and the federal government.

In September, 1954, President Eisenhower appointed an advisory committee on a National Highway Program which reported that the existing system of highways is inadequate and that a safe and efficient highway network is essential to America's military and civil defense. Further, while there were 34,400,000 cars and trucks on our roads in 1946 and over 58,000,000 today, it is anticipated that by 1965 the total will reach 81,000,000 and the present highway program would never keep pace with that expansion. In addition, the death toll from highway accidents is steadily increasing and a large contributing factor to this is the inadequacy of our present highway system.

Under the Senate bill, Texas, which has more miles of highway than any other State, would receive over the next five-year per-

iod \$725,700,000,000 for construction from the Federal Government to which it will add the necessary matching state funds. Whether the House approves the bill as passed by the Senate still remains to be seen, but it is certain that some type of large highway improvement legislation will be enacted this session.

New Farmers' Bulletin

We have received copies of a new farmers' bulletin entitled "Cotton Diseases and Methods of Control" which is available for distribution. Crop losses caused by cotton diseases constitute about 15 per cent of the total crop. To combat these diseases the cotton grower must know the cause, symptoms and most effective control measures. This bulletin gives such information on the more important cotton diseases. If you think this bulletin will be helpful, I will be glad to send copies so long as they last.

Federal Grants-in-Aid

Recent figures indicate the total amount of funds which are distributed by the Federal Government as grants-in-aid to individuals and State and local governments. These figures show that Texas ranks third in the nation in the amount of money received from Washington. The totals are deceiving. While in 1954 Texas received \$257,218,000 in grants, at the same time Texans paid into the Federal Treasury \$2,193,725, such as the interstate highways which by their very nature are national in scope and should be supervised by the Federal Government, there are many more which could be better handled by the Government.

While there are many programs that we pay well for every penny 000. This illustrates most clearly we receive from the United States than any other State, would receive over the next five-year per-

in the process of travel from the State to Washington and back again.

Narcotics Hearings

Our Committee for investigation of the narcotics traffic begins public hearings this week. Our first witness, Mr. H. J. Anslinger, Commissioner of Narcotics, has been asked to give the Committee heretofore unpublished data on the concentration of the narcotics problem by cities and states. He has already told us that the principal source of illicit narcotics is Red China where manufacture and sale is being encouraged by Government officials, both for monetary gain and for demoralization of people to whom the narcotics are sold in the free nations.

PLANE KILLS MAN IN YARD

College Park, Md. — Andrew C. Slemph, Jr., 47-year-old airplane mechanic, was mangled to death in his own back yard when the plane he was working on apparently jumped the clocks beneath its wheels and Slemph was caught in the propeller. After knocking Slemph down, the plane, minus its wings, continued forward until it rammed into the inside rear wall of the garage. Mrs. Slemph, hearing the crash, investigated, found her husband and ran for help. Slemph was pronounced dead by a medical examiner.

Gen. Thomas D. White, Vice Chief of the Air Force: "It has become habit to believe that we are bound to win any technological race, particularly with the Soviet. This is a dangerous complacency."

The President's Advisory Committee on Weather Control plans extensive "rain-making" tests at Mount Washington in New Hampshire.

Help Keep Canyon Clean!

SUGAR-SWEET PORK

Urbana, Ill. — Although sugar-cured ham on the hoof hasn't appeared as yet, A. H. Jensen of the University of Illinois reports that tests demonstrate that pigs definitely prefer the taste of a ration containing 20 per cent sugar.

The Foreign Ministers of Belgium, Britain, France, West Germany, Italy, Luxembourg and the Netherlands recently met in Paris to organize the new Western European Union defensive alliance.

The Department of Commerce reported that the business upsurge to near-record levels in the first quarter of 1955 showed no signs of abating.

Wirt Electric

"I love the time-saving advantages of my ELECTRIC RANGE!"

says Mrs. James Russell,
1009 BALTIMORE STREET
PLAINVIEW, TEXAS

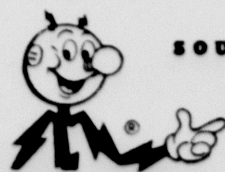

Reddy Kilowatt just loves to take the work out of cooking, as he has for so many homemakers like Mrs. Russell. "Preparing breakfast for my husband, James, is a snap. The controlled heat of our electric range turns out perfect pancakes every time." Start the day right—cook breakfast electrically.

The modern range? Of course, it's electric. Mrs. Russell points out the "plus values" on her electric range. "The minute minder — convenience outlets — grill — automatic timer — and well-lighted work surface are all wonderful. They give me a big bonus — extra time for other things."

Perfection comes from accuracy — and the heat of an electric range is pre-set, no outside force — a breeze, for example — can affect it. In Mrs. Russell's words: "I can put my pie in the oven, set the timer, and go about my other household tasks while my electric range bakes the pie perfectly."

Yes, in ranges, as in all other appliances, to be modern, it must be electric. And if it's electric it's convenient and time-saving, like Mrs. Russell's all-electric kitchen. "My all-electric kitchen affords more leisure time for my family and friends." Yours will, too.

DISASTER KNOWS NO SEASON

A blaze in the night... a funnel-like cloud... the crunch of metal and glass on a busy highway. All — fire, tornado or traffic accident — could spell disaster for you and yours.

Yes, disaster knows no season. But insurance — dependable, quality insurance — provides a cushion that lessens disaster's shock.

To be sure that your insurance against disaster is complete and adequate, buy it only from an experienced, qualified Local Agent. Only then can you be sure that you have dependable, time-tested protection.

That's because your Local Agent represents only Capital Stock Property Insurance Companies. For more than a century, they have been America's "standard of protection" — and your guarantee of peace of mind.

Be sure when you insure. Get reliable protection from:

MISS GLENNA REAGAN

Mrs. W. E. Reagan of Tulsa announces the engagement and approaching marriage of her daughter, Glenna, to Mr. James W. Reynolds, son of Mr. and Mrs. W. T. Reynolds of Canyon. The rites will be read on Sunday, June 12, in the home of Mr. and Mrs. W. T. Reynolds.

MRS. COFFEE ENTERTAINS FORTY-TWO CLUB THURSDAY

Mrs. Herschel Coffee entertained the Forty-Two Club at its regular meeting in her beautiful home Thursday afternoon. The entertaining rooms were decorated with roses from the Coffee's rose garden which were a lovely sight to see. The roses were a profusion of many colored blooms and the dozens Mrs. Coffee had gathered for her party were not missed.

Present were Mesdames R. P. Jarrett, Sr., Floyd Tomlinson, I. R. SoRelle, John Williams, J. S. Humphries, Lee Johnson, J. J. Walker, C. A. Murray, S. H. Condon, Cecil Briggs, W. F. Haggard, Thomas B. McCarter, Lee Gilmore, John Gilis, Wilford Taylor, Jr., Burney Slack, Alfred Bellah, Frank Barnhill, Clyde Warwick, and Miss Edna Graham.

Refreshments were served of ice cream, punch and angel food cake.

1945 CLASS W. T. HIGH HOLD REUNION RECENTLY

Members of the West Texas High School senior class of 1945 met for a reunion at Thompson Park in Amarillo Sunday, May 29. It was the first time the class had gotten together since their graduation ten years ago.

A picnic lunch and visiting highlighted the day. A reunion was planned for next year to be held around Memorial Day.

Those present for the gala occasion were Mr. and Mrs. William Oglesby and daughters, Mr. and Mrs. Windy Glenn and son of Amarillo, Mr. and Mrs. Kenneth Goodman and daughters, Mr. and Mrs. J. R. Stork and family of Canyon, Mr. and Mrs. Hoffman and family of Hereford, and Mr. and Mrs. Winston Evans of Wildorado.

Mrs. Nell Findley Awarded Fellowship

Mrs. Nell Findley, teacher of science in Canyon High School, has been awarded a Fellowship from Westinghouse to attend a program for science teachers at M.I.T., Cambridge, Mass.

Mrs. Findley was chosen as one of the 50 teachers in the nation to be granted these fellowships.

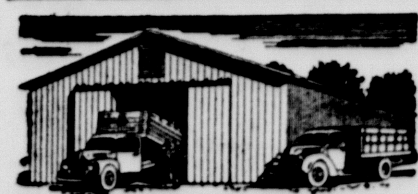

Announcement that these Fellowships were to be granted was made sometime ago by Westinghouse and teachers over the nation were invited to make application. Recommendations, transcripts of college work and records of experience were to accompany application. Choice of the 50 was made from these.

Mrs. Findley will be in Cambridge from June 27 until August 5. Classes for that time carry a heavy schedule with stress being made on current applications in physics, biology, and chemistry.

UNUSUAL RIDE

Plattsburgh, N. Y. — When his motorcycle and a truck collided on a city street, Floyd Hayes, 21, was thrown under the truck. He grabbed the front axle as he went under and "rode the axle to a stop." He was treated at a hospital for leg and hand injuries.

Henry Ford II recently announced a three-year \$625,000,000 expansion of the Ford Motor Company.

Latest Rumors From Political Front of Nation

White House staff members are under orders not to discuss the subject of a second term for President Eisenhower. Aides of the President have been inclined to point out reasons why Mr. Eisenhower would accept a draft in 1956.

Mr. Eisenhower spent the better part of 45 minutes giving a lecture to a group of Wisconsin women who paid him a visit wearing big buttons that said: "Vigilant Women for the Bricker Amendment." Ike gave them an exposition on why he thought they were wrong.

The President is very annoyed by the disorderly procedure that has led to trouble over testing and distribution of polio vaccine. He is inclined to blame Government officials who failed to foresee problems that would arise.

U. S. military officials have been told bluntly by President Eisenhower that in the future he or the Secretary of State will do any predicting that is to be done about the prospect for war. The lid is on all talk of war.

The President is having some difficulty in finding a woman to take the Cabinet job of Secretary of Health, Education and Welfare when Mrs. Oveta Culp Hobby leaves. It may be that a man will get that post, which members of Congress regard as so politically important.

Thomas Dewey, former New York Governor and two-time nominee of the Republicans for the Presidency, is to lose his control over federal patronage in New York State. Important Republican politicians have complained to the President that the party would have difficulty in New York next year if the White House continued to turn to Mr. Dewey for selection of individuals to fill important jobs.

Charles E. Wilson, Secretary of Defense, is having a study made of Government arsenals to see whether the armed forces can get out of the weapons-manufacturing business that they have been in through much of the country's history. Military officers are pointing out privately that Government arsenals have kept alive the art of munitions manufacture during lean as well as fat years, and they fear the long-term effect on defense if these arsenals should be disposed of.

Sam Rayburn, House Speaker, is credited with shaping strategy that calls for Democrats to keep needing George Humphrey, Treasury Secretary, and other officials with charges that they are doing favors for the country's wealthy individuals and corporations. A favorite Democratic target is the subject of "tax loopholes."

John McClellan, Arkansas Senator and chairman of the Senate watchdog committee on Government Operations, is inclined to think that he is just scratching the surface of irregularities in military buying that he expects will show the country that a Republican Administration can have its "mink coat" scandals, too.

President Eisenhower is coming under great and growing pressure to lower bars to trade with Russia and other Communist states.

Richard Nixon, Vice President, is not being groomed as the man to carry on peace negotiations with the Russians if President Eisenhower does find a basis for future talks about peace in the "cold war." John Foster Dulles, Secretary of State, is to get the top negotiating job.

V. M. Molotov, Russia's Foreign Minister and top hatchet man, reportedly told acquaintances during his recent visit to Vienna that his appearance at the coming United Nations meeting in San Francisco would be his last as Foreign Minister. Andrei Gromyko, Deputy Foreign Minister, and no mental giant, is being talked of as Molotov's successor.

American diplomats, talking with Russia's Molotov, were greatly impressed by his English-speaking interpreter who not only translated but apparently had influence. He turned out to be the son of Alexander Troyanovsky, former Soviet Ambassador to U. S., who once attended school in Washington. The elder Troyanovsky was demoted to a low-grade job because of his friendship for U. S.

Top generals in Russia are beginning to talk of a "preventive war" against the United States to be launched when this country least expects it. American generals are uncertain whether the Russians really mean it or are just whistling to keep up their courage.

Sir Winston Churchill's success in passing on the Prime Ministry of Britain to Sir Anthony Eden is reported by some of President Eisenhower's friends to have made its impression on Ike's thinking about 1956 in this country. The President keeps talking about younger men in the Republican Party who are qualified to fill his job.

Texas 4-H Clubs Send Aid Korea

COLLEGE STATION: Korean 4-H club members have already voiced their thankfulness for the assistance they soon will be receiving from fellow members in Texas. Latest word from the Texas Friendship for Korea drive indicates that materials, equipment, seeds and livestock in sufficient quantities to load the ship are in sight.

"The response has been overwhelming. Each day the list gets larger," reports the Texas Christian Rural Overseas Program Committee. Col. C. A. Anderson, who spent some 10 weeks in Texas this spring telling 4-H members, their leaders, supervisors and others what was needed in Korea, writes from that country that all newspapers, both English and Korean, have carried stories about what was happening in Texas. "This program," he said, "is not only aiding Korea economically and educationally but is also a great morale builder."

Plans are going forward for the loading ceremonies scheduled for June 20 at the Port of Houston. Texas 4-H members along with farmers, ranchmen, organized labor groups, church leaders and churches and many, many individuals have had a part in loading the Texas Friendship for Korea.

The contributions made by 4-H members, their friends and supporters, will go to Korean 4-H members for use in their demonstration and project activities. In his last letter Col. Anderson said that he was in need of light trans-

portation as well as something for carrying freight. He specifically requested that efforts be made to include in the 4-H contributions a pick-up to handle this dual need.

The CROP committee reports that cash donations are needed to meet the expenses of getting the great array of materials, equipment and livestock to port; for crating and other incidental expenses and for feeding the livestock while aboard ship.

EX-GI'S HONOR "MOM"

Hollywood, Calif. — Frances Bavier, an unmarried television actress, known to thousands of GI's during World War II as "Mom," received a unique Mother's Day gift — 10,000 signatures of former GI's from Maine to California. Miss Bavier traveled from Normandy to Saipan with an entertaining troupe, but, when not acting, she endeared herself to many by listening sympathetically to problems of homesick sailors, soldiers and Marines.

CARNATION SUMMER SALAD

(Makes 6 servings)
from *Mary Blake* Director Carnation
Home Service Department
2 packages (3 ounces
each) lemon flavored
gelatin dessert
1 cup boiling water
1 cup undiluted Carnation
Evaporated Milk
1/4 cup lemon juice
1 cup chopped cooked
ham (or canned
luncheon meat)
1/4 cup chopped celery
1/4 cup chopped
green onions
2 tablespoons chopped
green pepper
2 tablespoons chopped
pimiento
1 tablespoon steak sauce
1/2 teaspoon salt
Dissolve lemon gelatin in hot water. Chill
until slightly thickened (about 40-45 min-
utes). Chill Carnation in refrigerator tray
until soft ice crystals form through the milk
(about 15-20 minutes). Whip until stiff
(about 1 minute). Add lemon juice and
Combine ham and vegetables with steak
sauce and salt in bowl. Fold in whipped
Carnation and chilled gelatin. Blend thor-
oughly and place in 1 1/2 quart mold. Chill
until firm (about 2 hours). Unmold by
dipping in hot water for a few seconds
and serve on platter lined with salad
greens.
